

## 5 Major Powers Told To Plan Disarmament

### Canada Primate Dies

LATE ARCHBISHOP OWEN

TORONTO (CP)—Most Rev. Derwyn Trevor Owen, Archbishop of Toronto and Primate of the Church of England in Canada, died today in a hospital. He was 70.

(During a visit to Victoria Archbishop Owen preached in Christ Church Cathedral last Jan. 20.)

Archbishop Owen, who was elected to the primacy Sept. 18, 1934, suffered a heart seizure in Synod House this afternoon. Mrs. Owen was at his bedside when death came shortly after 3 p.m. His last official act was the celebration of Holy Communion in St. James' Cathedral Easter Sunday morning. The service was broadcast to Europe.

### LATEST

### Hotel Rents To Rise

VANCOUVER (CP)—A survey here today indicated most of the large city hotels will raise daily room rates as a result of the price ceiling removal.

### U.S. Explores Prices

WASHINGTON (AP)—President Truman explored the economic problems of rising prices during an hour and 40-minute cabinet session today. The White House announced afterward "no action was taken or is planned."

### Against Lilienthal

WASHINGTON (AP)—Senator Jenner (R., Ind.) said today he would vote against confirmation of David E. Lilienthal as chairman of the U.S. Atomic Energy Commission. He said Lilienthal "has been at least passive" to Communism.

### Mayors Will Meet

MONTREAL (CP)—The executive committee of the Canadian Federation of Mayors and Municipalities will meet in Ottawa Friday to complete plans for the federation's annual convention to be held July 8-11 in Winnipeg. It was announced today.

### Cited For Contempt

WASHINGTON (AP)—The House of Representatives Committee on Un-American Activities voted unanimously today to cite Eugene Dennis, Communist Party secretary, for contempt after he had failed to respond to a subpoena.

### Search For Plane

EDMONTON (CP)—Search was continuing today for a small single-engine aircraft reported since its taking off from Edmonton airport Saturday for Embarras, about 325 miles south of here and near the southeast end of Lake Athabasca. It was piloted by Spencer Addeman, and one passenger was reported aboard.

### Schacht On Trial

STUTTGART, Germany (AP)—Pale and drawn after three years in various prisons, Hjalmar Schacht, one-time top Nazi financier, today opened a new fight for freedom before a German denazification court.

Schacht, who appeared in court wearing a faded blue suit and a dirty white shirt, demanded acquittal on the grounds he had never been a Nazi Party member and could prove he had tried to oust Adolf Hitler.

## Drive Launched On Guerrillas In North Greece

ATHENS (AP)—The Greek government announced today launching of a long-awaited "general offensive" designed to crush guerrilla forces in western Macedonia and Thessaly.

The announcement said operations began at dawn after government aircraft had dropped thousands of leaflets warning the civilian population that the offensive was about to start.

Both the 2nd and 3rd Army Corps were reported participating.

Strong forces were reported standing by ready to prevent the guerrillas from escaping by sea.

The leaflets, addressed to civilians, warned them to keep away from roads and streets in the field of operations.

Lt. Gen. Demetrios Yatzis, in command of the offensive, issued the following order of the day: "Forward, and may God be with you. Crush the insurrection. All of Greece follows you and confidently expects the restoration of peace and order."

Preparations for the offensive were nearing completion when King George II died unexpectedly last week. It only remained for his successor, King Paul I, to give the word to go.

Unofficial reports have said the government was ready to throw most of its 130,000 regular army troops as well as the national gendarmerie of 30,000 men into the fight.

The government is virtually staking its life on the success of the campaign.

If it fails, most observers believe the country will fall into complete disorder.

The cabinet decided today to recruit 6,000 additional gendarmes to police areas cleared of guerrillas during the current drive.

BUY PLANES FROM BRITAIN

LONDON (AP)—The ministry of supply today confirmed a report that 500 British fighter planes have been sold to Turkey and are being delivered by R.A.F. pilots. The sale was understood to be connected with the proposed loan to Turkey.

Spitfires, Mosquitos and Beaufighters were included among the planes sold. Some had been declared obsolete, but none was on the British list of "surplus" planes.

He pointed out during the past five years dairy farmers had made an invaluable contribution to the public welfare at little gain to themselves.

"When rising costs forced other businesses to raise prices, and when organized labor got higher wages, the dairy farmer went unrecognized—although his living and production costs went up in the same proportion," he said.

He pointed out the government had subsidized the price of milk and butter, but the benefit went to the consumer.

Mr. Malcolm warned that farmers were gradually cutting their herds and selling dairy cattle for meat because "it pays them better than milking those cows."

### NOT ENOUGH MILK

"If this condition is permitted to grow unchecked, he said, "it will cease to be a question of what must be paid for milk. There simply won't be enough to meet requirements and the loss of dairy cattle and dairymen will create a public catastrophe, which will take a long time to correct."

Henry Robinson, representing Vancouver Island Dairymen's Association, predicted that by next year 50 per cent of Victoria will not be able to get milk if present conditions were not remedied.

John Edge, representing independent shippers, pointed out that in 1922 the price of producer's milk was \$4 per hundred pounds. The price today was \$3.25.

Other speakers included C. A. Williams who explained to the board that if milk was to go down the cost of labor would also have to decrease.

The board adjourned until this afternoon when opponents of a milk price increase were expected to present their case.

George W. Malcolm, general manager of the Island Farms Co-operative Association, said the public must face the fact that milk production on Vancouver Island was decreasing while the population and demand was increasing, and many farmers were ceasing to produce milk.

"Like any other business man, the farmer will produce that which is most profitable," he said. "We realize that unless the dairy farmer receives adequate return for his milk, production will fall to such a low level, that the public will be concerned about obtaining milk, rather than the price of milk."

## Belmont Building Not For Sale Until New Post Office Built

All hope of the city obtaining the Belmont Building at the present time was completely dashed by information contained in a letter received by Mayor Percy George today, sent from Ottawa by R. W. Mayhew's secretary.

In a letter sent to Mr. Mayhew, a copy of which was forwarded to Mayor George, the Deputy Minister of Public Works stated: "It is our intention to retain the Belmont Building until such time as the proposed new federal building in Victoria has been erected and further, that the present Post Office is recondi-

tioned. At that time consideration could be given to the disposal of the Belmont Building and your suggestions in this respect will be borne in mind."

The new city hall committee, under the chairmanship of Ald. Edward Williams, is meeting with Mr. Mayhew today to discuss the situation and to hear Mr. Mayhew's report on his representations in Ottawa. Ald. Williams said other action will have to be taken immediately to get the plans for the new building under way and the site chosen.

### Ontario Flood

Scenes such as this at London, Ont., have been witnessed along the Thames River, where many citizens either moved upstairs or evacuated their homes. See today's story on flood, page 2.

## Molotov Opposes Bevin-Marshall Move To Draw New German-Polish Frontier

MOSCOW (AP)—Britain and the United States proposed to the Council of Foreign Ministers tonight a revision in the present German-Polish frontier to put agricultural lands inside Germany, but Russia opposed any changes.

Foreign Minister Bidault proposed the whole question be studied further, but he did not commit France as being in favor or opposed to present German boundaries.

State Secretary Marshall and Foreign Secretary Bevin quoted heretofore secret speeches of Prime Minister Stalin at Potsdam to show the generalissimo did not consider as final the present administrative Polish border set at the Oder and Neisse rivers by the Big Three Potsdam conference.

Both maintained Stalin had agreed the border set at Potsdam was provisional and would be settled finally at the peace conference.

### SPECIAL COMMISSION

Marshall proposed the Foreign Ministers name a special boundary commission to recommend a permanent Polish frontier.

The commission would be composed of the United States, Britain, Russia and France, plus Poland and some other Allied states.

Marshall suggested the commission also study measures to assure that the natural and industrial resources in question "shall fairly serve" the economic needs of Europe.

"It will be accepted, I think," Marshall said, "that southern East Prussia should become Polish territory; German Upper Silesia and its industrial complex should become Polish, but there should be provisions to assure that its coal and other resources should be available to help sustain the economy of Europe."

"The division of the remaining territory, largely agricultural

land, requires consideration of the needs of the Polish and German peoples and of Europe as a whole."

Poland would not be deprived of compensation for territories lost to the Soviet Union, Marshall said, and "the new frontiers of Poland must be adequate to give Poland resources at least as great as she had before the war and capable of maintaining her people at a good standard of life."

A large area of East Poland was incorporated into Russia in the settlement which gave Poland former German land.)

An inkling of the American plan came earlier when it was reported that the United States had developed a German boundary program which would retain the Ruhr in Germany and Upper Silesia in Poland.

HAND FOR OTHERS

At the same time the program would give other European states a hand in administering the vital economic resources of both regions.

The ministers also were expected to head into a showdown fight on French demands concerning the industrial Ruhr and Rhineland.

Western diplomats said the day should bring a clear indication as to whether Foreign Minister Molotov intends to go along with Marshall and Bevin in their efforts to speed up the work of the conference.

The Justice Department kept secret its own view pending another appearance by Lewis to

morrow before the judge who plastered him and the U.M.W. with fines totaling \$3,510,000 for violating a no-strike order last December.

The order will hold good until the government returns the pits to private ownership.

Lewis advised his union locals by telegram Tuesday that he approves "resumption of production at each mine as fast as it is certified by federal mine inspectors as being in conformity with the federal mine safety code."

John D. Battle, executive secretary of the National Coal Association, said: "He is in reality telling his miners not to return to work until the federal inspectors have had time to revisit all the mines and recertify them—a matter of weeks or months."

## Operators Accuse Lewis Of Defying Federal Court Order

WASHINGTON (AP)—Owners of the seized soft coal mines of the U.S. accused John L. Lewis today of engineering a "deliberate and premeditated" new strike by his United Mine Workers (A.F.L.) in defiance of federal courts.

The Justice Department kept secret its own view pending another appearance by Lewis to

morrow before the judge who plastered him and the U.M.W. with fines totaling \$3,510,000 for violating a no-strike order last December.

The order will hold good until the government returns the pits to private ownership.

Lewis advised his union locals by telegram Tuesday that he approves "resumption of production at each mine as fast as it is certified by federal mine inspectors as being in conformity with the federal mine safety code."

## Bare Majority Of U.N. Board Backs Proposal

LAKE SUCCESS, N.Y. (AP)—The United Nations' Commission on Conventional Armaments today saddled the five major powers with full responsibility for working out preliminary world arms-reduction plans.

The 11-power commission by a bare majority approved Colombian proposal naming the five permanent members of the Security Council—France, China, Britain, Russia and the United States—as a drafting sub-committee.

The resolution was voted in two sections, the first providing merely creation of a sub-committee, and the second stipulating that its membership would be restricted to the major powers.

Joao Carlos Muniz, Brazilian representative, told the commission the big powers had reserved to themselves the right of the veto and the right of making war and peace.

"They should stand up to their responsibilities," he added.

Meanwhile, delegates of the United Nations' Atomic Energy Commission studied closely Russia's agreement to strict inspection and control of atomic energy.

GROMYKO APPROVES

Andrei A. Gromyko, Soviet delegate, was reported authoritatively to have told the working committee of the commission Russia would accept such inspection and control on all stages of atomic development, which was proposed in the first report of the atomic commission. Gromyko had not voted on that report and his statement was the first hint that Russia had agreed to that important feature.

Gromyko rejected a portion of the report suggesting airplane flights be made over national territories as one means of inspection for plants.

He said Russia stood for strict control and efficient inspection. The committee decided to meet again Monday to continue the questioning of the Soviet delegate on his plan.

Meanwhile, silent residents gathered before the castle at noon for a country-wide observance of two minutes' silence in memory of Danish soldiers who died when Germany invaded Denmark April 9, 1940. Church bells tolled for the fallen soldiers all over Denmark except in the area of the castle.

5 Firemen Injured

PORTLAND, Ore. (AP)—A three-story brick warehouse here was destroyed in a \$300,000 fire today and five firemen were treated for injuries ranging from a fractured wrist to cut hands.

The actions were taken as a result of an investigation made by Chandler after Larry Macphail of the New York American League club had brought charges of defamation against Durocher and Branch Rickey, head of the Brooklyn club.

The commissioner found that two alleged gamblers were not sitting in a box with Macphail during a recent baseball game in Havana.

Dressen's suspension, it developed, was the result of his leaving the Dodge club to work for the Yankees. Chandler said he was convinced the coach had agreed to remain with Rickey for two more years, although no formal contract had been signed.

BELOW STANDARD

"Durocher has not measured up to the standards expected or required of managers of our baseball teams," Chandler said in his finding.

"As a result of the accumulated unpleasant incidents in which he has been involved, which the commissioner construes as detrimental to baseball, Manager Durocher is hereby suspended from participating in professional baseball for the 1947 season."

RICKEY "STUNNED"

NEW YORK (AP)—President Branch Rickey of the Brooklyn Dodgers apparently was too stunned today at notification of Leo Durocher's suspension as manager to issue an immediate statement.

He declined to talk to newspapermen by telephone, but his assistants said Rickey probably would have something to say later in the day and might announce a manager to take Durocher's place this season.

The leading candidate appeared to be Ray Blades, Dodge coach.

While the organization, which claims a membership of about 1,000 in Greater Winnipeg, about 50 in Brandon, and affiliation with a number of women's societies, has not decided on details, the strike will not be directed against the small businessman or corner grocery, she said. It will be against the large wholesaler and manufacturer.

"We feel the government is cynically disregarding the needs of the people and catering to big business, whose profits have been greatest in 1946... we intend to ask labor and women's organizations to get behind us," she said.

"Meanwhile we will not relax our pressure upon the government, which we feel still can stem the rising tide of prices."

Norse Remember German Attack Today

OSLO (Reuter)—Norwegians today celebrated the anniversary of Germany's invasion of Norway in 1940 as a day of remembrance for Norwegian and Allied war victims. Prayers were said for the United Nations and improved international relations.

Leo Durocher Suspended For Entire Season By Baseball Czar

CINCINNATI (AP)—Leo Durocher, manager of the Brooklyn Dodgers in the National League, today was suspended for the 1947 season by Baseball Commissioner A. B. Chandler.

Chuck Dressen, former coach of the Dodgers and now a member of the New York Yankee coaching staff, was suspended for 30 days beginning April 15.

The Brooklyn club and the New York Yankees club each was fined \$2,000.

Harold Parrott, traveling secretary of the Brooklyn team, was fined \$500.

## A. Crockett Heads Landlords' League

Landlords' Protective League of Victoria elected A. Crockett president at its annual meeting Tuesday night. He succeeded J. E. Seabrook.

Others elected were: L. W. Aspin, secretary; Mr. Seabrook, first vice-president, and J. E. Fisher, second vice-president. A committee was also elected.

The Victoria League will contact similar associations in other cities in Canada with a view to affiliating with them.

Members discussed the new order permitting an increase in rental ceilings but said effects of the order could not be forecast, until the regulations had received more study.

## Study Store Holiday

VANCOUVER (CP)—The city council has deferred action on the Wednesday holiday for store employees and employees for two weeks. The aldermen decided Tuesday to study the new amendments to the Shops Regulations Weekly Half-Holiday Act before taking action on retail merchants' requests for the all-Wednesday closing.

## Weather

Moist air over B.C. was causing continued cloudiness and widely scattered showers over most of the province early this morning. However, gradual clearing was expected during the next 48 hours over most of the interior. A storm of doubtful intensity lies about 500 miles west of the Queen Charlottes and is expected to bring rain to the coastal sections.

Vancouver and vicinity Lower Fraser Valley—Mostly overcast today, tonight and Thursday. Intermittent rain commencing early Thursday. Winds light. Little change in temperature.

Strait of Georgia—Overcast today, tonight and Thursday. Intermittent rain overnight and Thursday. Winds light, increasing to southeasterly 20 overnight. Little change in temperature.

West Coast Vancouver Island—Overcast today, tonight and Thursday. Intermittent rain. Winds light. Little change in temperature.

## To Begin Repairs On Island Roads This Week—Carson

Machinery is now being put into operation for repair to Vancouver Island roads north of Duncan, which are in bad condition owing to frost damage this winter. Works Minister E. C. Carson said today.

Roads in the neighborhood of Comox and Courtenay are the worst in the province, the minister admitted. Operation is expected to begin this week on a gravel crushing and paving plant which have been installed in that area. The plant has a range of about 25 miles.

Next on the Vancouver Island road repair program is repaving of that section of the Island Highway between Duncan and Nanaimo, which is also in bad condition, Mr. Carson said.

He estimated frost damage to roads throughout the province to be about \$1,000,000 and said that it had been the worst in B.C. history.

Roads in the Fraser River Valley in the neighborhood of Hope and Mission are second only to those on Vancouver Island in their poor condition. A gravel crushing plant for this area is now on order but efforts to obtain one have so far proved unsuccessful.

## Red Cross Blood Unit Here Again

The Red Cross mobile blood transfusion unit is again in Victoria, operating at the Canadian Legion, Britannia Branch Hall.

It will, however, only operate this afternoon and evening.

Two hundred volunteers are expected to donate during the two shifts. The majority of donors will come from H.M.C. Dockyard and Yarrow's shipyard.

The blood is used in British Columbia to supply blood transfusions to those who need them, free of charge. It is used in both civilian and veterans' hospitals.

Provincial officials of the Red Cross blood service report that many persons who have benefited from the service have now fully recovered and have, themselves, donated blood to the service.

More donors are urgently needed, the officials say, if the blood supply to the hospitals is to be kept continuous.

Victorians who would donate to this service are asked to contact the Red Cross headquarters at 602 Broughton Street, or phone B 3159.

The Department of National Defence recently announced that liaison would be set up through-out the various commands between service camps and Red Cross blood depots, and all service personnel will be encouraged to donate to the service.

This was done at H.M.C.S. Naden, March 18, when 300 ratings and other ranks donated to the blood bank.

Killed At Show  
MINNEAPOLIS (AP)—A musician in the orchestra at the Northwest Sportsmen's Show in the Minneapolis Auditorium was accidentally shot and killed Tuesday night during a pistol exhibition by a man and wife team.

Coroner Russell R. Heim said the victim was Curtis Erickson, 27, Minneapolis, a bass viol player.

The pistol was accidentally discharged during a target shooting act by William and Frances Johnson, Dr. Heim said.

## Proposed Merger Of 2 Sections Of Army To Make Largest Unit

OTTAWA (CP)—The army today announced its efforts at co-ordination have resulted in a re-organization which eventually will merge two of its major branches into a single section that will be considerably larger than any other in the land force.

Affected are the supply, transport, works and construction, development and repair sections, and the reorganization is aimed at the eventual fusion of the quartermaster-general and master-general of the ordnance branches with Maj.-Gen. N. E. Rodger of Amherst, N.S., the present quartermaster-general, as chief.

His chief aides will assist in the immediate control of the present Q.M.G. and M.G.O. functions.

ONE-MAN CONTROL  
The army said the change had been brought about by three factors "which make it desirable for one man to co-ordinate the responsibility of the two branches." They are:

1. The former M.G.O., Maj.-Gen. MacQueen has been appointed president of Canadian Arsenal Ltd., a Crown corporation, which works closely with the forces.

2. Great quantities of wartime buildings and equipment have been disposed of, with a resultant lightening of the load on the two branches.

3. The job of returning soldiers, dependents and equipment from overseas has largely disappeared.

## Government Plane Now At Pat Bay

Now at Patricia Bay is the first airplane to be purchased by the B.C. government. It will be based there and used by the provincial works department to fly road engineers to various B.C. points.

The plane, an Anson, purchased from War Assets Corporation, arrived here from Winnipeg. Second choice in use of the government plane will go to other provincial departments.

Although the plane, which was flown here by the government's pilot, is ready for service, operations are delayed because Dominion licenses to operate the plane are not yet ready.

## Thousands Pay Tribute To Ford

DETROIT (AP)—Henry Ford, honored in death as he was in life, received the final tributes today of his fellow citizens and workers.

In his Greenfield Village, Ford's body lay in state where thousands could have a last look at the industrial genius who died in his 84th year of a cerebral hemorrhage Monday night.

First to file past the lily-banked coffin were three uniformed plant protection men; there were other old-time Ford workers, adults and children; the line stretched to the gate leading into the Greenfield Village recreation centre. The line wound out for several hundred feet before the gate opened at 8 a. m.

An hour later 2,219 persons had passed by the casket. Officials said they expected an even larger crowd toward evening when the work shifts at the nearby Ford plants change.

## Store Cashiers Foil Hold-up Attempt

VANCOUVER (CP)—A daring attempt by a lone gunman to hold up the department store of David Spencer Ltd. was foiled by two women cashiers late Tuesday.

The youthful desperado, described as pasty-faced and about 2' years old, vanished among the crowd of closing-hour shoppers when the cashiers "ducked beneath the counter" instead of handing over their money as demanded by the bandit.

Police armed with a description of the bandit, were conducting an intensive search for him throughout the city's underworld today.

The cashiers, Mrs. Janet F. Brown and Miss Frances E. Wood, said the gunman first approached the information wicket and asked to cash a cheque, then returned about 10 minutes later and thrust a pencilled, crudely-written note under the wicket to Miss Wood. The note read:

"This is a hold-up. If you value your life don't give any alarm, put money in envelope, all of it. Count to 90 before holiering. Two cops were killed for less and I'm in the mood."

Miss Wood said he carried a gun partially concealed by a magazine.

"I don't know how I felt," Miss Wood said later, "but immediately I ducked beneath the counter and Mrs. Brown, who had been standing beside me, ran to the opposite end of the counter."

"When we looked up the man had vanished."

## Gallup Poll

## 78% See Living Costs Up Within Next Six Months

By CANADIAN INSTITUTE OF PUBLIC OPINION

Some recognized economic analysts have held that the gradual removal of price controls in Canada will not result in any notable increase in the cost of living. A few have gone even further and predicted that price levels will turn downward before the end of this year.

Eight in every 10 rank-and-file Canadian voters, however, are skeptical.

Just before announcement of sweeping controls on a lengthy list of items last Wednesday, the Institute surveyed a cross-section of adult Canadians of all classes in every province.

They were asked: "Do you think your cost of living in the next six months will be more, or less, than it is now?" Here is how the miniature national electorate see their personal cost of living outlook: Will be higher 78 per cent, will be lower 6 per cent, about the same 14 per cent, no opinion 2 per cent.

Voters in the Maritime provinces are somewhat less unanimous in expecting living costs to rise, more than one-fifth of them expecting the level to remain about the same as at present.

FARMERS EXPECT WORST  
Highest proportions expecting an increase are in the prairie provinces; and in line with this prairie viewpoint, the farm group everywhere expect higher living costs in the same relative numbers as do urban voters.

Within the urban areas, there is little difference of opinion, as among the lower, middle and upper income classes. Business and professional groups see their cost of living increasing in exactly the same proportions as persons in labor occupations.

Single persons, slightly more optimistic than the average, compare as follows with the married and parent voters:

Expect Living Costs to Be:  
More Less Same Opinion  
Single 72% 9% 16% 3%  
Married—no children 79 5 14 2  
Married—with children 81 4 12 3  
(World Copyright Reserved)

## Flood Waters Recede At Chatham; Damage May Exceed \$1,000,000

CHATHAM (CP)—This city near the southwestern tip of Ontario today breathed relief that the flood threat had passed its maximum with comparatively little damage. But farmers and residents of small communities between here and Lake St. Clair—18 miles to the west—frantically worked to build up dikes along the course of the turbulent river Thames.

Thousands of acres of rich farmlands had been inundated for stretches far north and south of the tortuous course of the river, from northeast of London, 70 miles east, to its mouth in Lake St. Clair. And these crop and property losses from the Thames waters were only part of the damage inflicted by other streams, swollen by melting snows and recent heavy rains, which broke their banks in wide areas of the province.

No one could accurately assay the over-all loss, but it would top \$1,000,000, a figure well below the damage caused by the great floods of 1937.

Residents here awaited an opportunity to start the job of cleaning up. Late Tuesday night, ANNOUNCEMENTS

Annual membership meeting United Nations Society, Victoria, Thursday, April 10, 8 p.m., Memorial Hall, 912 Vancouver Street. Prospective members welcome.

Craighurst for afternoon tea unsurpassed. Reopening April 2, serving by appointment, Tuesday, Wednesday, Saturday and Sunday, 1179 Munro St. E1363.

David B. Caird, Registered Chiropractor; foot ailments massaged; short-wave massage; individually built supports. 723 Fort Street, B3732.

Eagles 48th annual banquet and dance, Club Sirroco, April 11, commencing at 7 p.m. Members are requested to pick up their tickets as soon as possible at the secretary's office. Admission, \$2.00 per person.

Everyone welcome to Parent-Teacher Convention, Empress Hotel, Thursday. Highlights: Morning, Mrs. J. S. Stewart from United States; afternoon, Vocal Commission reports; 7 p.m. banquet and entertainment.

vinces are somewhat less unanimous in expecting living costs to rise, more than one-fifth of them expecting the level to remain about the same as at present.

FARMERS EXPECT WORST  
Highest proportions expecting an increase are in the prairie provinces; and in line with this prairie viewpoint, the farm group everywhere expect higher living costs in the same relative numbers as do urban voters.

Within the urban areas, there is little difference of opinion, as among the lower, middle and upper income classes. Business and professional groups see their cost of living increasing in exactly the same proportions as persons in labor occupations.

Single persons, slightly more optimistic than the average, compare as follows with the married and parent voters:

Expect Living Costs to Be:  
More Less Same Opinion  
Single 72% 9% 16% 3%  
Married—no children 79 5 14 2  
Married—with children 81 4 12 3

At noon today the river still was 20 feet 3 inches above normal. Damage did not appear to be extensive.

As the flood established a new river peak only about 24 families were forced from their dwellings. Many others clung stubbornly to homes in low-lying, badly-flooded areas.

With water flooding many basements of business establishments and homes, electric fuses were put out of business at many places, leaving hundreds of buildings in darkness, many telephones out of order and heating systems cold. Candles and oil lamps were used in one telegraph office.

## Wedding CUSTOMS

## WHY ... are OLD SHOES associated with Weddings?

It was an ancient custom for the bride's father to throw his shoe as a sign that he no longer had authority over his daughter.

For nearly TWO SCORE YEARS it has been a custom for brides to choose their precious wedding rings at LITTLE & TAYLOR. And a very wise custom it is... for in our selection you may choose the latest in beautiful designs from

\$750 to \$500.00

## 'Rights Of Work' Bill Becomes Law In Texas

AUSTIN, Tex. (CP)—Governor Beauford Jester signed into law Tuesday night a so-called "Rights of Work" Bill which makes it illegal to deny anyone employment because of his or her membership

or non-membership in a labor union. He expressed the belief the act would not destroy union labor or take away the right of collective bargaining.

## 4,000 Workers To Seek Wage Boost

VANCOUVER (CP) — Four thousand steel and wooden shipyard workers in Vancouver will seek wage increases this summer, W. L. White, president, Boilermakers' Union (C.C.L.), said here Tuesday.

He said the two major yards, Burrard Drydock and Pacific Drydock on the north shore, are buzzing with postwar contracts and repair orders and the union is hard-pressed to supply enough skilled men.

Present contract between the boilermakers and the steel yards expires Aug. 1 but the union can open negotiations two months before that date—June 1.

The wooden shipyards agreement is up July 18 and negotiations for wage boosts here will probably open about June 18.

Today Burrard Drydock employs between 1,200 and 1,500 men on the \$17,000,000 French order for 11 colliers.

Pacific Drydock has a full summer's repair work ahead and now employs about 900 men.

If Burrard could get the steel there would be work for 2,000 men, White said.

This was confirmed by W. J. Wardle, general manager of the yard. Since it is "very difficult" to get the steel, however, it is doubtful if the yard can speed up its work on the French orders, he said.

B.C. Marine Engineers and Shipbuilders Ltd., employing some 200 men, is also covered by the Boilermakers' master agreement, White said. He estimated there are about 1,000 workmen in the wooden shipyards.

## Scots Again See Lock Ness Monster

INVERNESS, Scotland (AP) — Despite the shortage of Scotch whisky, some people are reporting seeing Loch Ness monster again. (North Scotland's 1947 tourist season is just starting.) To hear them tell it, the thing swooshes through the long narrow lake as fearfully as ever.

So much for the wartime claim of Mussolini's propaganda staff that a direct bomb hit had destroyed the Loch Ness monster. The monster was first reported "seen" in 1933, but was cooly out of sight during most of the war.

J. W. McKillop, county clerk, said he had sighted it today.

"The monster was traveling diagonally across the loch," related McKillop, a sober man. "It traveled at high speed to the other side and submerged about 200 yards off the shore."

Four men in an automobile, drinking habits unknown, also insisted they had seen Nessie, as local residents call the monster. One man said it had a gleaming body and one hump. The other said they had seen two humps.

Earlier accounts have credited Nessie with up to six humps and have described him—or her—as a serpentine creature anywhere from 12 to more than 100 feet long.

## Passengers Walked To Work

Driver of the overturned car was hurt when it and a bus collided in Thompsonville, Conn. The bus stopped on top of the auto and the passengers got out and walked to work.

## News Of The Island Commissioners Say Parksville To Get Own Water System

PARKSVILLE — Assurance that the municipality would soon have a water system was given by the commissioners at their meeting Monday evening.

It was decided to ask F. C. Stewart, Vancouver consulting engineer who made preliminary plans, to come to Parksville to confer with the commissioners, the provincial engineer and the Campbell Construction Company in connection with laying mains.

The commission announced that the Campbell Construction Company had submitted a tender within the allowance of \$45,000 for putting in the system. The commission also said that sufficient materials for the project were now assured.

It was decided to put in ditches and Crown Reynolds Road as soon as the thoroughfare had dried out sufficiently. This will be done in order to reroute traffic while the Island Highway before the shopping centre is rebuilt.

Signs were ordered for the garbage dump just south of Craig's Crossing. Residents will be directed to dump in one spot and not indiscriminately as in the past.

The commission made plans for Parksville streets to be cleaned once a week throughout the summer. Members also agreed to employ a street cleaner.

It was decided to pay standard union wages to all labor employed by the municipality.

Plans were completed to license dogs and impound any found without licenses. The regulations

will become effective later this month.

Decision was made that the municipal clerk continue to collect taxes instead of turning the work over to the bank as previously suggested.

A letter from the public works department informed the commission that the depot at Parksville would continue to be used. The department noted that if more space were needed it would be requested from the municipality.

## Duncan Co-operative Directly Influences Market Conditions

DUNCAN — By marketing in excess of 200,000 pounds of poultry, the Vancouver Island Poultry Co-operative Association has a stabilizing influence on general marketing conditions, officials told the annual meeting here.

Directors' report showed an increase of 101 new members and the auditors' report indicated the Co-operative was in a healthy financial condition.

D. Bacon, taking the chair in the absence of the president, Mr. R. W. Seymour, stressed the fact that volume of poultry now produced on Vancouver Island, had grown to such proportions that a modern killing plant, such as the one operated by the Co-operative, was indispensable.

"What would happen if the Co-op were to cease operating for a few months?" he asked. There would be such a glut on the market that independent buyers would be at a loss to cope with it.

"With an eye to the future, the plant has been built to handle the present volume," Mr. Bacon said. "An increase in volume would assure a substantial surplus for 1947."

A trade agreement with the Cowichan Creamery was described as "a milestone towards co-operative unity." "Vancouver Island Poultry Co-operative members were now patronizing the creamery feed department and creamery members' eggs were being processed by the Poultry Co-operative."

## \$10,000 Objective For Hall Passed

PARKSVILLE — Loaded on trucks, loaned by logging companies, sections of the former army gymnasium from Nanaimo Camp were moved here last week-end for the new community hall. The remainder of the structure will be brought in on the following two week-ends.

Meanwhile the drive for \$10,000 for the hall passed its objective in less than six days of canvassing. J. L. Nicholls, hall board chairman, expected that results would be considerable more when final returns from companies with headquarters outside the community were received.

Also going to the fund will be part of the proceeds of the dance planned by Parksville high students at Errington Hall, April 19.

Please return all Wednesday closing petitions to the Joint Committee at once, completed, uncompleted or blank.

## Coats flattering and new

These changeable Spring days the coat tops your ensemble. Never before have we offered a more complete showing of lovely styles. ## Duncan Man Heads Island Poultry Group

DUNCAN — H. D. Arnold of this up-island city, was elected president of the Vancouver Island Poultry Co-operative Association, at the annual meeting here.

He succeeded W. W. Seymour, retiring president, who felt that he was ineligible to stand for reelection as he was no longer in the poultry business.

Mr. Arnold emigrated to Canada from Britain three years before the war and practised law in Vancouver. He later enlisted in the army and received his discharge after four years service. At the end of hostilities, he took a course in poultry husbandry at the University of British Columbia and purchased a farm on Lakes Road where he resides with his family.

Mr. Arnold is building up a sizeable flock of geese and is optimistic about the possibilities of expansion of the goose industry on Vancouver Island.

New directors for 1947 are: Mr. Arnold, Duncan; F. O. E. Murphy, Nanaimo, and C. E. Nelson, Wellington. Fred McNish, Courtenay director, declined to stand for reelection but the suggestion was made that the Co-operative have a resident agent at Courtenay rather than

a director, due to the long distance involved in traveling to and from directors' meetings.

## \$200 Damage To Car

## ANOTHER TOUGH PEACE JOB

CANADIANS, BRITONS, AUSTRALIANS, New Zealanders and Americans will dominate numerically the personnel of the delegations of 18 nations as they assemble in Geneva tomorrow to begin discussions on ways and means of facilitating international trade. This country's participants will be headed by Mr. Dana Wilgress, the extremely able Vancouver-born Canadian ambassador to the Soviet Union, while technical officials will include the chairman of the Tariff Board and the Deputy Minister of National Revenue in charge of Customs and Excise. Though the Dominion's representation in point of numbers will not be as imposing as that of either Australia, Britain, or the United States, Canada's key position in the world of trade and commerce will make up in importance and influence for what she may appear to lack in sound and force.

As our readers will readily recall, of course, during the last few weeks in London a preparatory committee has endeavored to clear the way for discussion of the more or less formalized agenda at the conference which may well keep the delegates busy in the delightful city on Lake Lemana for a considerable time. Mr. Wilgress and this country's party of two dozen obviously realize that the task to which they are about to apply their specialized knowledge will demand a good deal of the traditional formula of give-and-take. Because the economy of Canada is so closely related to that of the United States, and because this Dominion and the rest of the self-governing states of the British Commonwealth at present trade with one another under specific provisions of the Ottawa Pacts of 1932, much of the success—or failure—of this International Trade Conference will naturally depend upon the course the spokesmen for the United States have set.

In other words, it would appear that the main conflict of view, as far as British countries and the neighboring Republic are concerned, may revolve around what is known in Commonwealth policy as "imperial preference" and in American policy as the "Reciprocal Trade Agreements Act." The former was the inevitable sequel to the almost unscalable Smoot-Hawley tariff law with which the Hoover administration, in 1930, virtually barred entrance to all imports. The latter, on the other hand, was Mr. Cordell Hull's practical and successful attempt in 1934—under the Roosevelt regime—to try to undo some of the damage the tariff spree of the 'twenties had caused the world's business structure. That measure is still the law of United States; but objections to its renewal at the legal intervals has served to emphasize the fact that a good deal of the old economic isolationism which marked American policy between 1920 and 1932 still persists.

The question which will project itself onto the stage of this conference in Geneva, therefore, is: "Will the influential United States delegation—responsible to a Congress controlled by the Republican Party of high tariff tradition—offer the joint Commonwealth delegation sufficient inducement in the strict economic sense to permit of a substantial readjustment of the 'imperial preference' formula? If the Britanic and American trading blocs are able to agree on the fundamentals of such a give-and-take policy, then many of the obstacles which are tantalizing most of the rest of the nations represented at Geneva should no longer be insurmountable.

## A NEED FOR LIGHT

WHEN THE FOREIGN MINISTERS OF the Big Four opened their deliberations in Moscow last month, it was suggested that the reading public of the western powers would be well advised not to look for miracles. Some hope was entertained that progress might be made. No assurance could be given. Under these circumstances, the words of Britain's Ernest Bevin—"We have been here for four weeks and have accomplished absolutely nothing"—lose some of their sting. As Associated Press correspondent Eddy Gilmore points out, however, failure of the Russian press to mention that remark is not without significance. And if the lack of progress is having a depressing effect on the Russian people, the reaction may well underscore a deficiency in the Soviet system of news dissemination.

A combination of a state-controlled press and the "iron curtain" is obscuring light on world affairs. The western powers are kept peering into the gloom the curtain creates over Russia and the Russian is unable to look out on western ideas. In this semi-darkness, moreover, Ivan Ivanovich can scarcely be expected to see western aims for a world of peace in true perspective any more than the westerner is able to understand any parallel Russian aspiration. It is highly improbable, for instance, that Ivan has been in a position to understand U.S. opposition to Russian claims for reparations, which the American citizen sees a direct siphoning from Germany of the resuscitating aid he has provided.

It is gratifying, nevertheless, to learn from Mr. Gilmore that in all the wild talk

now circulating in the streets of Moscow there is no discussion by the working people of an attack by the U.S.S.R. against the United States. It is, on the other hand, not too remarkable that the talk is in the reverse direction. The increasingly urgent necessity seems to be one of broadening the interchange of ideas through expanded and uncensored reporting. By that means the literature of one country could gain a greater appreciation of the hopes and aspirations of the others.

The fears that plague the working people of Russia, of course, find a parallel in the anxieties that weigh down the working people of the western lands when they regard the indications of increasing tension between the ideologically-different nations. It is imperative that means should be found by which the reassurance of understanding can be built, and that the peoples who admired one another as partners in war should regain and strengthen their former accord on the basis of trust and co-operation.

## READJUSTMENT INDICATED

VERY DEFINITE ARGUMENTS FOR adjustment of certain charges against surrounding municipalities were put forward to the City Council yesterday by Ald. Ed. Williams in questions he raised over payments by the municipalities to Victoria for specific services. If the facts are as they were indicated, the situation is one calling for immediate attention.

Alderman Williams referred specifically to jail accommodation and garbage collection. If the lock-up charges to outside municipalities are limited solely to the cost of meals supplied prisoners housed in the city building pending trial or following conviction, a very definite inequality exists. It is highly improbable, but nevertheless possible, that inmates might be solely from adjacent districts. If the city happened to have none of its own tenants in enforced domicile, it would still have to shoulder upkeep costs for the place of incarceration. Under such circumstances maintenance would be a straight gift to the municipalities, relieving them of the necessity of putting up their own jails.

That would be an extreme hypothesis. At the same time, it emphasizes the responsibility of the city's neighbors to meet at least some of the costs of maintaining an unfortunately necessary institution. Investigation of the other services, garbage among them, could provide further material to support the case raised by Ald. Williams.

Under amalgamation, of course, such inequalities would cease to exist. Without unification, however, they become items Victoria cannot afford to ignore. Nor will there be any civic inclination to continue to be, in Ald. F. G. Mulliner's words, "suckers" for the adjacent municipalities.

## UNITS OF THE STATE

THE ACTION OF THE SOVIET GOVERNMENT in denying exit visas to 15 Russian-born women, thus making it impossible for them to join their British husbands, emphasizes a fundamental difference between the lot of the human being under Communism and the position of the citizen in a democratic state.

Canadian and British ex-servicemen have brought out wives from half a dozen European countries without more than the usual shipping and red tape difficulties. But in Russia the situation is different. For there the citizen is not one individual in a group of individuals who have agreed to form a state which still preserves his personal and inviolable entity. He has stopped being a "personality" and has become "personnel." Under Communism the State is supreme, and the citizen is merely an economic or social unit—a functioning part of the larger organism. His body, his life and his personal ambitions belong to the State, to be disposed of according to plan. Thus it is that the 15 women who married Britons have been told they would be "deserting their posts" if they left the country.

The British minister in Moscow, Mr. F. K. Roberts, who, like Field Marshal Montgomery and Foreign Secretary Bevin, was rebuffed when he interceded on behalf of the women, points out that the problem is a moral not a legal one, since no case of international law is involved. "This is not an important political question but certainly it is an important psychological one," he commented. The point is one which should not be lost upon those in Canada who are anxious to try the Communist way of life.

## MILITARY TO MINERAL

HUDSON BAY'S PORT OF CHURCHILL, originally established for the shipment of wheat to Liverpool may become the intake centre for ore shipments from the region of Baker Lake in Keewatin, some 300 miles to the north. The Muskox expedition tested military equipment in its long trek into the Barren Lands of Northwest Canada; but apparently technological experiments conducted at the army outpost at Baker Lake have been superseded by the geological investigations conducted by its members. Attracted by stories, backed by visual possession of gold-bearing bits of quartz among the Eskimos, prospectors, amateur and professional, have uncovered silver, copper and gold-bearing rocks, shorn by nature of the overburden which covers their nakedness in more temperate climes. Fairy tales seem to have been translated into facts and technological difficulties of transportation cleared by the "Operation Muskox." What was understood to be military is evidently now about to become civilian, and the lands known to be barren of vegetation are found to be rich in minerals.

## Walter Lippmann

CASSANDRA SPEAKING

THERE IS STILL some time left to prepare measures against the great postwar crisis, which is developing in Europe and will surely, if it is not checked and prevented, affect the whole world. The Greek affair, so suddenly thrust upon the United States, and the inevitable disagreement at Moscow on reparations are only two symptoms among many others of the gravity of the situation.

The crisis is developing because none of the leading nations of Europe—Great Britain, France, Italy, Germany—is recovering from the war, or has any reasonable prospect of recovery with the means at its disposal and on the plans and policies upon which it is now working. The nations of Europe are taking out a precarious existence. They are staving off the collapse of their currencies and of their present standards of life, not by successful production but only by using up their dwindling assets and the loans, the subsidies, and doles which come from Canada, the United States, and in small amounts from the few other solvent countries.

The danger of a European economic collapse is the threat that hangs over all the world.

I DO NOT BELIEVE I am exaggerating. I am saying only what informed and responsible men say when they do not have to keep up appearances in public. If it sounds sensational, it is because the men who realize the truth of it are reluctant to advertise it. American officials shrink from the ordeal of explaining it to Senator Taft and those who see things as he does.

The British government, intent on sustaining the morale of the people and on exhorting them to greater sacrifice and effort, has chosen to take the line in its official propaganda that the U.S. must not be alarmed, and that they have the situation in hand. They are, if I may say so, acting as if the spirit of Churchill after Dunkerque could be aroused by a policy which is like that of Chamberlain before Norway.

IN ANY EVENT the United States, which will be the receiver if there is a collapse, needs to be awakened, not put comfortably to sleep with assurances that are true enough, but not relevant to the practical realities of the case, about the character of the British people. After Dunkerque, the British fought on superbly. But neither Churchill in London nor Latham in Washington failed to use his powers of persuasion to make this country realize that the war could not be won without American assistance.

The British had about \$6,000,000,000 of hard money at the beginning of this year. They are using it up at the rate of \$2,000,000,000 a year.

There is no prospect as things stand now, even if their plans work nearly perfectly, that they can do more than postpone the day when their funds are exhausted.

EVEN TO DO THAT, they will be compelled to do elsewhere what they have done in Greece. The time is not far off when, except for token forces perhaps, they will have to withdraw from Germany, leaving the whole of western Germany—that is to say most of Germany—to the United States. This will leave the U.S. isolated in Europe, face to face with the Russians in the heart of a continent which—let us not deceive ourselves—dreads more than anything else the prospect of being used as the arena of conflict between Russia and America.

The economic collapse of Britain—if it is not dealt with thoroughly before it occurs—will spread economic dislocation and have political repercussions throughout all the regions of the world which are within the sterling area. London is still the financial and political centre of an immense part of the globe. The financial margin on which it is operating is so thin—it will be perhaps \$4,000,000,000 at the end of this year—that there is no safety in it. Everything must come out right. Nothing unexpected must happen. The British people must do voluntarily what no people has ever done, except under compulsion. The margin of time is very short—two years if we prefer to be optimistic rather than prudent.

THE TRUTH IS THAT political and economic measures on a scale which no responsible statesman has yet ventured to hint at will be needed in the next year or so. To prevent the crisis which will otherwise engulf Europe and spread chaos throughout the world, the measures will have to be very large—in Europe no less than an economic union, and on this continent no less than the equivalent of a revival of lend-lease. To deal with the crisis, if it is not prevented, the measures will have to be infinitely larger and much more dangerous.

I know how unwelcome these predictions are. I wish it were not so evident that they are true.

(Copyright, 1947, New York Tribune Inc.)

## Quoting

The rung of a ladder was never meant to rest upon, but only to hold a man's foot long enough to enable him to put the other somewhat higher.—Thomas Henry Huxley.

The question today is whether the Eastern and Western worlds will find a way of living together in peace.—The Rev. Martin Niemöller.

If the United States and Russia can work together for 20 or 30 or 50 years to run the world without war, they may produce a world government.—Arnold J. Toynbee, British historian.

## Showing Off His Brainchild

## Australia Plans For Immigrants

Australia Magazine

AN EARNEST HOPE that the free and assisted passage schemes under which United Kingdom migrants will be brought to Australia will operate early in 1947 was expressed by Immigration Minister Arthur A. Calwell in a recent statement.

Mr. Calwell, who was addressing the House of Representatives said that these schemes were in the forefront of the Commonwealth's entire immigration program.

Shipping difficulties had so far made it impossible for the Australian and United Kingdom governments to declare them open but enquiries already registered from people in the United Kingdom totaled 63,700. These enquiries covered approximately 153,000 people in 866 occupational categories.

## SHIPPING DIFFICULTIES

The date for opening of the free and assisted passage schemes would be determined by the two governments as soon as possible. Decision, however, was entirely dependent on the ability of the governments to reach agreement with British shipping companies as to the fares to be charged during the currency of both schemes.

He said that the Commonwealth would be responsible for the recruiting, medical examination, selection, and transportation of all British migrants brought out from the free and assisted passage schemes, and for placing them in employment. The state governments would undertake responsibility for their reception and accommodation on arrival, and would, where necessary, bear

the cost of the migrants' maintenance for a period of seven days after their arrival.

## FARES PAID

The fares of migrants from port of disembarkation to their final destination would be borne by the government of the state in which they were settling, except when private transportation was used, when the cost would be equally shared by the state and the Commonwealth. The Commonwealth and state governments would jointly meet the capital expenditure on governmental establishments in which migrants would be temporarily accommodated after their arrival.

Referring to the encouragement of child or youth migration by voluntary organizations, Mr. Calwell emphasized that government assistance was uniformly available to all religious and secular organizations wishing to introduce child migrants and youths. Generally speaking, the Commonwealth government and the state government concerned would each bear one-third of any capital expenditure for the accommodation of these migrants.

## PRIORITIES

Mr. Calwell said that in the early stages of the free and assisted passage schemes it was likely more migrants would be offering that could be carried in available shipping and a system of priorities would be introduced. Highest priorities would include non-inflated migrants classified as essential workers for Australian industry, for whom accommodation was provided.

Any system of priorities would be flexible, to meet special cases. In the early stages transport and accommodation difficulties would mean that preference would be given to single persons. Later it might be practicable to grant family units priority.

## SERVICEMEN STAY

Reviewing special arrangements made for men and women of the British Forces to remain permanently in Australia after their discharge from service, Mr. Calwell said that the only requirement was that the prospective migrant was of sound health and good character. To the present, over 4,500 applications had been approved in Australia, and more than 200 by Australian government representatives overseas. Special facilities had also been given to allied servicemen, particularly of the United States and the Netherlands to encourage them to remain in Australia or to return after discharge in their homelands. Over 1,000 United States servicemen had been granted their discharges in Australia and permission to return had been granted to many others.

Re-establishment benefits similar to those granted Australian ex-service personnel in regard to employment aids, transitional unemployment allowances, training, re-establishment loans, fares to employment and assistance with tools of trade, would be available to British and allied ex-service personnel. They were not, however, eligible for preference in employment under the Australian Soldiers' Repatriation Act.

## Lack Of Discipline

Ottawa Journal

In Buffalo recently there was a strike of teachers for higher salaries, and for some weeks the schools were disorganized. Eventually the teachers went back to work on a higher schedule.

A strike of pupils, such as that in Toronto's Malvern Collegiate, is perhaps a natural development. If teachers can strike, why not students? So we see the boys and girls of Malvern, in sympathy with a principal whose resignation has been asked by the Board of Education, refusing to attend classes.

It is a shocking situation, and one with which Toronto's authorities must deal quickly and sternly. The issue is, flatly, whether the schools shall be run by the students or by the constituted and elected officials, and on that issue there can be no weakening.

The question goes back to home discipline—the parents who are permitting this gang of immature boys and girls to try to dictate policy are greatly at fault, and it might solve the whole problem if the Board of Education launched wholesale prosecutions against them for breaking the law by failing to send their children to school.

## You Never Can Tell

IT IS CURRENTLY popular to consider Britain's sore economic plight and to recall incidents indicative of the character of the tight little isle's people as a means of relieving the gloom now prevalent over their future. It is the time to remember Mr. Churchill's remarks about a citizen that did not know when it was beaten and to review little, personal associations that bring hope from the clouds.

Many stories are told of British endurance, of the capacity to transcend apparent physical powers and to call up a moral strength to meet challenging obstacles. None serves the purpose better than the memory of the mile race a relatively obscure Englishman, R. H. Thomas, ran at the first British Empire Games at Hamilton in 1930. The event was clearly the special preserve of Australia's great miler "Tinkle" Whyte.

## ONLY HE WAS IGNORANT

At the gun, Thomas broke away like a sprinter, shot to the front and maintained a pace that separated him far from the field. Experienced track men were amazed. It was hardly his job to run the field into the ground and let a more enduring performer take over before the fin-

ish. But out in front Thomas stayed. Everyone knew he could not keep up the pace—everyone but Thomas. Past the halfway mark it was just a matter of waiting until he cracked, when his legs or wind gave out and he stumbled into the infield to let the more renowned figures fight for the lead. At the three-quarter mark, it was the same. "Tinkle" Whyte began his kick, moved up out of the ruck and started his drive for home. Still Thomas failed to crack.

Coming in to the tape he was sound and strong, so far ahead of his closest challenger the latter had little chance. He did more than break the ribbon that day. He broke popular opinion and orthodox concepts of human abilities. But then, you can never tell about an Englishman. It is a point to remember now when considering the odds against him in the economic race. —A.H.S.

Mount Robson in Mount Robson Park is the highest peak in the Canadian Rockies (12,975).

It is possible to pick blueberries in Mount Seymour Park from early July to late September. As the snow retreats from the lower levels successive crops of berries ripen.

## CLIPPED AT RANDOM

### BRIGHT SPOT

London (Ont.) Free Press  
A youngster was fined for dancing on the street in Old London. Anyone who has such high spirits under present conditions should get a medal instead of a fine.

### DISCRIMINATION

Winnipeg Free Press  
The west, under existing discriminatory freight rates, provides the Canadian Pacific with out twice as much net earnings as does the east. And the west does this despite the fact that there is a smaller volume of freight traffic here than in the east.

### WHO TRAVELS ALONE

Ottawa Journal  
What's wrong with Canada? Too much bachelor government, says Mr. Patrick Ashby, M.P. An interesting theory, but on the other side it can be argued that a bachelor, free of domestic responsibilities has more time for his public duties and should therefore make a better job of them.

### RAIN AND CROPS

Edmonton Journal  
Last winter's heavy snows all over the west do not necessarily mean big crops this summer. Too much of the moisture they contain melts and runs off in the first mild days of spring. The wide-spread floods of the past fortnight provide too conclusive evidence of the "run off." Rain in the late fall, with the moisture sinking deep into the crop-lands and plentiful rain again in May, June and early July make the biggest crops.

What is encouraging this spring is that the land all over the west does contain a good supply of moisture. Prairie rainfall last fall was, on the average, 18 per cent greater than normal. That should mean a good start for this year's crops.

### THE ULTIMATE

Halifax Herald  
It is hard to believe, but the Windsor (Ont.) Star is a reliable newspaper and it prints this in its editorial columns:

Several people of Long Branch, near Toronto, should be feeling very proud of themselves. They have achieved the ultimate in something or other by picketing a funeral.

One may sympathize with these householders in their indignation over the establishment of an undertaking parlor on their residential street. But by parading in front of his premises, they were not embarrassing the mortician. Instead, they were intruding on the decent grief of a bereaved family, which was, to say the least, atrocious.

When picketing reaches that stage it is time to stop and take a good look at ourselves. There have been some extraordinary examples of picketing within recent times, but that reaches the end of the limit.

### FOR APPEARANCES

T.D.F. in the Ottawa Citizen  
"If I were an Englishman or a European or a Frenchman," a Winnipeg columnist writes, "I would not love Canadians or Americans. I think I would detest them." It wouldn't be at all surprising, of course, as lots of Canadians and Americans don't appear to have much use for other Canadians and Americans either. But for the sake of appearances we manage to put up with ourselves reasonably well.

## Why A Mess?

Edmonton Bulletin

A news item from San Francisco is slightly amusing which tells of a chef who claims to have induced General Eisenhower to stop calling army meals a "mess"—evidently in the belief that they might be more palatable by some other name.

Of course, it is not at all the meals that are called a "mess," but the room in which they are served.

But the term is not exclusively, nor even originally, the army's. Masculine life in the Orient includes "messes" whose members are brokers, bankers and so forth. Above all, the term has an ancient and distinguished lineage from a group of four diners. To this day at the Inns of Court in London four benchers or four students-at-law dining together constitute a mess.

If it could be traced to its origin, the term would probably be found to come from the Latin "missum," placed, i.e. food placed before the diner.

"Newspaper advertising has brought us quicker and larger response than any other form of advertising," says E. W. Ross, president of a pharmaceutical manufacturing firm.

## Central Figures In Hospital Opening

R. W. Mayhew, M.P. for Victoria, right, shakes hands with Rt. Hon. Ian A. Mackenzie, Minister of Veterans' Affairs, Tuesday afternoon in front of the plaque at the entrance to the new \$1,000,000 Victoria Veterans' Hospital on Richmond Avenue.

Announcement was made at Tuesday's official ceremony to open the new Victoria Veterans' Hospital on Richmond Avenue, that R. W. Mayhew, M.P. for Victoria, and Mrs. Mayhew had donated \$2,000 to be used by S. H. Okell, assistant district administrator of D.V.A., to the best advantage of the institution.

Main speakers at the ceremony were Mr. Mayhew, who officiated at the unveiling of the plaque on the right hand corner of the main entrance; Veterans' Minister Ian A. Mackenzie and Mayor Percy E. George. Mr. Okell was chairman.

Rain prevented the ceremony from being conducted out of doors.

In the course of his address, Mayor George, who was representing all mayors, reeves and councils on Vancouver Island, pointed out a little known fact: that the new hospital is located on Saanich soil.

A novel presentation was made

to Mr. Mayhew by A. L. Mercer, chief architect of the building. This was in the form of a chair. "You will find it in your favorite spot when you get home this afternoon," Mr. Mercer said.

Mrs. S. J. McDonald, president of the Women's Auxiliary of the Canadian Scottish Regiment, officiated at the presentation of furnishings for four sunrooms in the hospital donated by the auxiliary, while Mrs. G. A. Grant, service library convener for the Provincial Chapter of the I.O.D.E. presented the hospital with 500 books for its library.

Following the ceremony the large attendance toured the hos-

pital which has a 250-bed capacity, being conducted in groups by nurses and orderlies, the majority of whom are veterans of either or both wars.

Others at the opening were G. C. Derby, D.V.A. western regional administrator; Dr. Wallace Wilson, D.V.A. western regional officer; W. G. H. Roth, D.V.A. district administrator from Vancouver; Dr. Charles A. Watson, medical superintendent of the institution; Mr. Okell, Miss S. Jane Roberts, matron, officiated at a reception following the ceremony.

## Technocracy Speaker Here For Public Meeting

Thomas Porter of Seattle, Washington, authorized speaker for Technocracy Inc., arrived in Victoria today on a lecture tour which will cover the northwest States and western Canada. He is scheduled to speak here tomorrow night at 8 o'clock in Prince Robert House auditorium on the subject "The Coming Depression."

"The trends leading to our worst depression are already plainly to be seen," Mr. Porter commented today. "You can't distribute abundance with scarcity means, which is all money is, and you can't short circuit abundance much longer. Unless we get busy and install a scientific method of distribution of the abundance we now produce, we will wind up in a depression which will make the last one look like a pink tea by comparison."

Asked whether he wasn't taking an unduly pessimistic view of what economists contend will only be a temporary slump, Mr. Porter replied, "It isn't pessimism to face facts while you can still do something about them. It is just plain good sense. Staying away from the doctor to avoid hearing bad news never yet kept anyone from dying of cancer."

Interest in Technocracy's program is at an all time high, Mr. Porter states. Both attendance at public meetings and membership applications are breaking records in most towns he has visited. Tickets for his lecture here may be obtained at Section Headquarters, 720 Fort Street, or from any Technocrat. Admission 50 cents.

## Victoria Student Wins \$750 Bursary

John C. MacDonald, one of the winners of a National Research Council bursary of \$750, is the son of Mr. and Mrs. J. C. MacDonald of Victoria and a former student of Oak Bay High School and Victoria College.

During his two years at Victoria College, 1937-38 and 1938-39 he won honors in mathematics and physics and went on to graduate with first class honors in physics at the University of B.C. He immediately joined the Signal Corps and served with the army for the duration of the war. Since his discharge he has been attending university again, working on his master's degree. His \$750 bursary in physics is to carry on research work at the University of B.C.

## Apartment Leases Not General In B.C.

Granting of a 10 per cent increase in rental ceilings on apartments, provided a two-year lease is given, is another instance of the variation between eastern and British Columbia interests, in the opinion of H. Cuthbert Holmes.

Leasing of apartments in B.C. is not general, he said, adding that he felt some apartment owners would consider the increase offset to a certain degree by the need for a lease. "The lease binds the owner for two years but does not bind the tenant," he said.

Although it is probable today many tenants might be willing to enter into a two-year lease, in years gone by, tenants objected to such a move, Mr. Holmes said. The 10 per cent increase, however, would give apartment owners some measure of relief, as expenses of operating an apartment had increased considerably, he added.

## Says Canada Quit Europe Too Soon

VANCOUVER (CP)—Howard Green, Progressive Conservative member of Parliament for Vancouver South, said Wednesday night Canada's actions since the war have "left her little grounds for complaint at being left out in the cold" in the writing of the European peace.

Canada might have had representation, he claimed, if the government had not insisted that Great Britain, rather than the British Commonwealth, be one of the Big Four and if she had not "pulled out" of Germany, leaving the responsibility to others.

## ONLY PEPSODENT MAKES THIS PROMISE...

## DENTAL WHITENESS FOR YOUR TEETH!

How white—how bright—how film-free your teeth are after your dentist cleans them! That's real Dental Whiteness; and he relies on powder. You see, unless dull, dingy film is removed, it hardens—darkens—turns into harmful, ugly tartar. Pepsodent Tooth Powder with Irium is especially made to remove that trouble-causing film—gently, but thoroughly. You can see the difference! For teeth of Dental Whiteness change to Pepsodent Tooth Powder today.

FOR A CLEANER, FRESHER MOUTH... FOR WHITER, BRIGHTER TEETH... USE PEPSODENT TWICE A DAY

The difference is UNUSUAL—and PEPSODENT IS THE ONLY TOOTH POWDER CONTAINING IRIUM

## For the good of your Health you need these Oranges from Sunny California!

The rare combination of sunny days, cool nights and rich fertile soil gives California navel oranges many extras, makes them richer in healthful benefits. California navel orange juice is an excellent source of Vitamin C. Get your daily C in a 6 to 8 ounce glass of this richer flavoured juice.

## ONLY THESE ORANGES GIVE YOU THESE 5 EXTRAS!

1. Brighter Colour—Outside—bright, clean skin. Inside—sunny, golden juice.
2. Richer Flavour—Tempting! Refreshing! Sparkling with tangy zest.
3. Easier to Peel—Peels clean! Easily sliced for salads and desserts.
4. Easier to Section—Ideal for the Lunch Box—healthful, refreshing between meals.
5. No Seeds—Means no straining—no waste—served quicker!

The Navel tells you—NO SEEDS!

**Sunkist** CALIFORNIA Navel ORANGES

FIRST FOR JUICE—and Every use!

Only the finest fruit from 14,500 co-operating California-Arizona citrus growers is stamped Sunkist—Canada's favourite brand of Oranges.

## There Will Be MORE Jell-O in a Few Months!

COLORFUL Jell-O with its tangier "locked-in" flavor—and Jell-O Puddings with their old-fashioned home-made goodness—have been none too plentiful. But happier days are coming! Your grocer is going to have more Jell-O and Jell-O Puddings in the next little while. And some day there will be all of those famous, quick-and-easy desserts you want.

Meantime, when you get Jell-O or Jell-O Puddings, consider using them for such marvelous dishes as suggested here—and others on the packages.

Jade Layer Salad... Dissolve Lime Jell-O in 2 cups hot water. Pour ¾ cup into mould; chill. Whip remainder, blend with 1 cup seasoned chopped vegetables, 1 cup cottage cheese, ½ cup mayonnaise; let set over firm clear layer.

Party Puddings... (1) Use halved sweet wafers and maraschino cherries as butterfly wings and body, on rich Chocolate Jell-O Pudding. (2) Garnish creamy Vanilla Jell-O Pudding with mint jelly. (3) Fold chips of sweet chocolate into mellow Butterscotch Jell-O Pudding (while it's warm).

Jell-O is a trade-mark owned by General Foods, Limited

Do You Feel Nervous  
And All on Edge?

People suffering from loss of appetite and run-down condition with symptoms of nerve strain often need a nerve and general tonic. Glycero-Lecithin with Vitamin B(1) supplies tonic ingredients. It is especially beneficial for convalescents. By increasing the supply of Vitamin B(1) in the system, appetite is improved and the system thereby built up to normal. If the loss of appetite is due to deficiency of Vitamin B(1) in the diet, \$1.00 at all Cunningham Drug Stores and other drug stores.

## Personal Notes

Miss Nell Meagher, R.N., was a visitor in Victoria on the weekend. A member of the overseas nurses' division during the war, Miss Meagher is now attached to the Red Cross mobile blood transfusion clinic with headquarters in Vancouver.

Miss Jean Stevenson, R.N., was the weekend guest of Miss Charlotte Cook, Rockland Avenue. Miss Stevenson worked with Miss Cook in overseas service in South Africa during the war and is now a member of the social service staff at Essondale.

Mrs. John Stewart has returned to her Beach Drive home from a short stay in Vancouver following the sudden death of her father, Mr. John Valencourt Boyd, who was a resident of Victoria for many years before going to the mainland city.

Miss Alberta Creasor, R.N., supervisor, Victorian Order of Nurses in Vancouver, spent the past weekend as the guest of Mr. and Mrs. Alex Strath, Burdick Avenue. While in the city Miss Creasor attended the public health conference which took place at the Empress Hotel on Tuesday.

Mrs. J. C. Pendray was a bridegroom's hostess Tuesday evening at her home, 2391 Beach Drive, in honor of her daughter, Mrs. Robert J. Cummins, of Vancouver. Mrs. Cummins, accompanied by her young daughter, Roberta, flew from the mainland city on Easter Sunday to spend the week in Victoria.

Miss Elizabeth Allan has returned from Vancouver to stay with her parents, Mr. and Mrs. W. M. Allan, 29 Paddon Avenue, until the end of the month, when her marriage to Dr. J. A. Pearce, director of the Dominion Astrophysical Observatory, will take place. Miss Allan has been a member of the staff of the Provincial Laboratories in Vancouver for several years.

Mr. E. A. Gregory has returned to Vancouver after spending the Easter holidays with his sister, Mrs. A. W. Hazlehurst, Muskoka Cottage, Deep Cove, Sidney.

Honoring her brother, Mr. W. G. McLaren, who arrived recently from Chicago, Mrs. C. W. Bradshaw entertained at dinner at "The Ranch," Cordova Bay, Tuesday evening.

Mr. E. V. Johnson, 938 Hereward Road, was the guest of honor Saturday when friends who had served with him overseas entertained with a party at the Sirocco on the occasion of his departure Monday for England, where he will visit relatives and friends. Crossing Canada by train, Mr. Johnson will sail aboard the Aquitania April 13, and will return to his Victoria home in six months.

The United Commercial Travelers of America, Victoria Council 434, entertained Supreme Councilor, Mr. Ray Penrose, and Mrs. Penrose of Salt Lake City over the Easter weekend. Councilors and their ladies from Nanaimo joined Council 434, and a dinner was held in honor of Mr. Penrose, while the Ladies' Auxiliary entertained for Mrs. Penrose in the private lounge of Hotel Douglas.

On the occasion of his retirement as superintendent of the Royal Jubilee Hospital, Dr. T. W. Walker, was honored when members of the board of directors and their wives entertained at a farewell dinner Tuesday at the Union Club. On behalf of the board of directors, Mr. F. E. Winslow presented Dr. Walker with an antique sterling silver cigarette box, suitably engraved. Mrs. Walker received a corsage bouquet of gardenias. Covers were laid for 27.

Mr. and Mrs. Edmund Woodward entertained with a miscellaneous shower at their home on Fairfield Road, in honor of Mr. and Mrs. Eric Taylor, who were married recently in Vancouver. Gifts were contained in a huge silver Easter egg, on a mauve and gold decorated wagon drawn by Sharon Page. The bride was presented with a corsage bouquet of roses and carnations. Those present were Mrs. Sarah Parfitt, Mr. and Mrs. J. Ingram Smith, Dr. and Mrs. G. H. E. Green, Mr. and Mrs. James Winterbottom, Dr. and Mrs. David Parfitt, Mr. and Mrs. E. S. Page, Mr. and Mrs. Sidney Vincent, Mr. and Mrs. Robert Page, Mr. and Mrs. Sidney White, Mr. and Mrs. Charles Rowley, Mrs. Montgomery and Miss Gladys Rowley.

Honoring Miss Helen Finlayson, a bride-elect of this month, Mrs. George Wilson entertained recently at the home of her mother, Mrs. Bert Young, 1026 Carberry Gardens, with a miscellaneous shower. Decorations followed the Easter theme and gifts were presented in an Easter basket. Corsage bouquets were presented to the honor guest and her mother, Mrs. Forbes Finlayson. Others present were Mesdames T. A. Brady, B. Young, W. A. Davis, D. A. Nairne, C. A. Murdoch, William Grimm, W. Armstrong, D. K. Kennedy, D. Leask, B. Moore, A. Patenaude, J. T. Harper, G. Dyke, H. L. Landry, S. Renstrom, J. Finlayson, E. Pendray and Misses Mary and Gerry Kennedy, Ann Beckton, Mary Joy Taylor, Eva Lind Hunter, Terry Cran, Evelyn Finlayson, Wilma Davis and Joyce Dey.

## Banquet Honors Mr. And Mrs. Mayhew

The honor guests greet their son and daughter-in-law, Mr. and Mrs. Logan Mayhew, who were among the more than 60 residents of Oak Bay who gathered in the Oak Bay Beach Hotel Tuesday evening.

Members of the Oak Bay Liberal Association and their wives were hosts at a dinner Tuesday evening to honor Robert W. Mayhew and Mrs. Mayhew.

Guests were received by W. S. Kirkpatrick, president of the association, and Mrs. Kirkpatrick and presented to the honor guests before the fireplace in the spacious lounge at the Oak Bay Beach Hotel.

Tables were set in the paneled private dining room. Arrangements of gay spring flowers were used for decorations and a string trio played incidental music during the evening. Art Jackman sang several solos.

Seated at the head table were Mr. and Mrs. Mayhew, Mr. and Mrs. Kirkpatrick, Mr. and Mrs. G. F. Gregory, Mr. and Mrs. H. H. Hollins, Mr. and Mrs. R. D. Matthews and Mr. and Mrs. G. A. Hebdon.

Mr. Kirkpatrick presided and proposed the toast to the King. He also introduced guests at the head table to the gathering. Mr. Matthews introduced Mr. Mayhew who spoke briefly of his years at Ottawa.

"There is still much I hope to do," he said, "and as long as I can serve Victoria and Canada, I am happy."

"I am an optimist as far as this country is concerned," he emphasized. "We hear that there is no opportunity for youth in this country, but the opportunities are actually beyond the imagination of most of us."

He said that under the present government "a man is better able to serve Canada," and listed the achievements of the Dominion government during the past 16 years.

"Since I first went to Ottawa, the Liberal government has brought the country out of the depression and has been responsible for its all-out war effort," he said.

"We have now passed the transition period after the peace and controls are gradually being lifted as supplies are available," he continued. "As far as I'm concerned, I would rather see the controls lifted a little more slowly, so that speculators wouldn't have a chance to profit by items in short supply."

Mr. Mayhew said he believed rent controls would continue "for at least another year or two," and whatever happened, the government would face the future and do as good a job as in the past.

Reparking on the friendliness of the gathering, he said, "There is nothing in life that will take the place of friends."

Mr. Gregory thanked Mr. Mayhew for his informal talk. Others present included Mr. and Mrs. H. R. Stephens, Mr. and Mrs. S. Stephens, Dr. and Mrs. Gordon Kenning, Mr. and Mrs. A. Burns, Mr. and Mrs. W. Scott, Mrs. Niven, Mr. and Mrs. Fred Wright, Mr. and Mrs. Don Smith, Mr. and Mrs. J. V. Johnson, Mr. and Mrs. Fred McGregor, Mr. and Mrs. H. M. S. Bell, Mr. and Mrs. Harold Beckwith, Mr. and Mrs. Adams, Mr. and Mrs. Logan Mayhew, Mr. and Mrs. A. I. Thomas, Mr. and Mrs. S. T. Morrow, Mr. and Mrs. Alf Dowell, Mr. and Mrs. A. S. Farr, Mr. and Mrs. J. B. Clearhuc and Mr. and Mrs. J. Maltman.

Social committee in charge of arrangements were Messrs. Maltman, R. Matthews and H. R. Stephens.

Mollie Mitchell  
Weds S. Lawrence

Glad-Tiding Tabernacle, North Park Street, decorated by members of congregation, with Easter lilies, daffodils and greenery, was the scene of the ceremony Easter Monday at 2, which united in marriage Mary D. "Mollie," second daughter of Mrs. Ellen Mitchell, 655 Admirals Road, and the late John D. Mitchell, and Stanley A. W., only son of Mrs. Jessie Lawrence, 510 Gore Street and the late F. S. Lawrence. Rev. E. W. Robertson officiated.

Franklyn Mitchell gave his sister in marriage. She chose a rose suit of fine wool, fashioned with flared peplum back, and slim skirt. A small white hat with lace trim, white accessories and corsage bouquet of gardenias and lily of the valley completed her costume.

Miss Kathleen Mitchell was her sister's only attendant. She wore a moss green suit, with pink blouse and hat and corsage bouquet of pink carnations.

The groom chose as best man, John Taylor, and E. Webb and F. Yeaton ushered the guests to their seats.

At the home of the bride's mother, guests were received by the young couple, assisted by Mrs. Mitchell and Mrs. Lawrence, before a fireplace, banked with spring flowers. A three-tier cake flanked by tall lighted candles and vases of lilies, centred the bride's table. T. Glass, a close friend of the family, proposed the toast to the bride.

Mr. and Mrs. Lawrence left by plane for Vancouver from where they motored to Portland. The bride donned a strawberry Harris tweed coat over her wedding suit and completed her ensemble with brown accessories. On their return, they will reside at 655 Admirals Road.

### P. M. H. Edwards Speaks At Spanish Club

Tonight at 8 the Spanish Club of Victoria will hold a meeting at 732 Yates Street when the speaker will be P. M. H. Edwards, until recently director of the British Institution in Caracas, Venezuela.

Mr. Edwards will give a lecture in Spanish, entitled "Introducción a las Lenguas"—The Approach to Languages. He is a keen linguist, has studied the Scandinavian languages, as well as German, Hungarian, Russian, Estonian, and Finnish. In 1941, he was invited by the University of London to lecture at Oxford, during the summer session, on the languages of Finland and Estonia. Though British, Mr. Edwards speaks French fluently, having been brought up in France from his early childhood.

This will be the second occasion on which Mr. Edwards has addressed the Spanish Club of Victoria.

**Chi Rho Group**—The Greater Victoria Chi Rho Fellowship Group will hold a meeting in the Memorial Hall at 8 on Thursday. "Financing of the Home" will open the series of talks and the speaker will be Major H. Cuthbert Holmes.

### Parent-Teacher Ass'ns Meet In 3-Day Session

At the opening session of the 25th annual convention of the B.C. Parent-Teachers' Federation in the Crystal Ballroom at the Empress Hotel today, Mrs. C. W. Mellish, provincial president, gave a report on the state of the organization. She emphasized its rapid growth and the need of streamlining its business set-up to meet the needs of its larger membership.

"Parent-Teacher Federation has become big business almost overnight," she said.

"Three years ago there was a membership of a little over 7,000. Today, that membership is 15,800 with 51 new associations formed in 1946."

Mrs. Mellish pointed out that increased membership brings a realization of increased need for service to all associations, whether they are situated in the more inaccessible parts of British Columbia or in the urban districts.

"In order to continue parent-teacher work at a high level," she warned, "and to keep parent-teacher work alive, we must have trained and experienced field workers."

#### WORK FOR CHILDREN

She reminded her audience of the aims and objects of parent-teacher associations, that mean "the welfare of children in the community."

"Everything we do should be to promote these ideals," she urged.

Mrs. Mellish also stressed the fact that parents do not necessarily mean just fathers and mothers as any interested adult "is a parent in the finer sense of the word."

Mrs. Mellish and Mrs. W. W. Blair, president of Victoria and District Council, opened the session with official greetings to delegates. Dean Spencer H. Elliott pronounced the invocation.

Two new life members were named during the morning. Mrs. W. H. Foulkes of Vancouver and Mrs. C. D. Peele of New Westminster.

Mrs. D. W. McLeod, assistant program organizer, presented a request that seven new associations, Kensington Prairie, Zeballos, Moberley-Golden, McDonald-Vancouver, Port McNeill, Roberts Creek and Savona formed during the past few weeks, be given full privileges of the convention.

The treasurer's report presented by Mrs. A. J. McLennan showed total receipts of \$5,564.97 with disbursements of \$4,197.46.

Other reports were as follows: Disposition of resolutions presented at the 1946 convention, Mrs. R. Cormack; Canadian Federation of Homes and Schools and National notices of motion, Mrs. Kenneth Kern.

Two hundred and seventy-four delegates registered, representing 131 British Columbia associations. Mrs. F. Frank of Terrace, Mrs. Nora Shannon of Kimberley, Miss Elinor Moxley and Mrs. J. H. Black of Prince Rupert came the farthest distances to attend the convention.

Col. F. T. Fahey, deputy minister of Education, spoke at the luncheon for delegates held in the Empress Hotel.

At the afternoon session Mrs. Edward Mahon presented membership awards, announcing that eight associations had 100 per cent membership, fathers, mothers and teachers. These were Galiano, Lillooet, Crescent, Bench, Jordan River, Otter Point, Burnside-Victoria and Glen-Coquitlam.

A film, "Teach Them to Drive

Mrs. A. J. McLennan, treasurer, and Mrs. C. W. Mellish, president of the B.C. Parent-Teacher Federation.

Left to right, Mrs. A. H. Young, recording secretary; Mrs. Doris Ryckman, executive secretary; and Mrs. C. J. McCall, corresponding secretary, all have important parts on the convention agenda.

and Live" was shown with Mr. Marshall of the National Film Board as commentator. A panel discussion "Training for Citizenship" concluded business of the day.

Dr. S. R. Laycock was chairman and leading the discussion were Rev. W. Hills, Dr. Henrietta Anderson and Dr. W. G. Black. This evening a two-hour entertainment entitled "An

### Education Of Child Keynote Address

"It is impossible to educate a child piecemeal," Dr. S. R. Laycock, president, Canadian Federation of Home and School, told members of the B.C. Parent-Teacher Federation in session this morning at the Empress Hotel.

"The physical, emotional, social and intellectual aspects of the development of a child must go hand in hand," he continued, "and because of that we must never forget that the whole child goes to school and the whole child comes home again."

Dr. Laycock pointed out that the education of a child is in the hands of several teachers; at home, on the playing fields, in the church and Sunday school, in boys' and girls' clubs and in books and periodicals. Finally there is the great influence exerted by school teachers.

"If a child is to have the best possible chance at all-round development," he said, "all his sets of teachers, home, play, community and school, must have common aims and must co-operate effectively in the attainment of those aims."

#### P.T.A.'s PART

Parent-teacher associations act as liaison officers, he pointed out so parent-teacher aims in promoting the development of children and youth cannot stop at the school district or town or city boundary but must reach out to embrace the welfare of the children and youth of all lands everywhere.

"We must evaluate the results of our P.T.A. work by the extent to which the child achieves self realization, happy human relationships, economic efficiency and civic responsibility," Dr. Laycock continued.

He reminded his audience that parent-teacher co-operation should extend to an interest in the development of children from birth to adulthood; and then suggested that within their own associations parent-teacher members should make sure that they use the best possible techniques and methods in achieving parent-teacher association aims.

"All of the community should be interested in the community's children," he said. "No motions should be made or decisions arrived at until all the facts have been gathered and the question thoroughly studied."

"Public interest and support should be enlisted for those measures necessary for the adequate development of children."

"A vigorous parent-teacher as-

### Past Presidents Honored At Convention

At the silver jubilee convention of the B.C. Parent-Teacher Federation in session at the Empress Hotel today, Thursday and Friday, all past presidents of federation are being specially honored by taking some active part in the convention program.

The first president, Mrs. J. Muirhead is co-hostess with Mrs. J. W. Mellish, federation president.

Mrs. T. C. Rae, second president of federation, is now the parliamentary. Mrs. Laura Jamieson, third president, will be at the head table at the convention banquet on Thursday night.

Dr. Henrietta Anderson was on the panel discussion given this afternoon. Mrs. Edward Mahon presented membership awards at today's session.

Mrs. A. E. Delmage is now federation historian and will present her report at Thursday's banquet; Mrs. T. Barnard will present life membership certificates at the Thursday afternoon session. Dr. W. J. Black was on the panel discussion today and Mrs. J. P. Leeming is chairman of luncheon arrangements. Mrs. Kenneth Kern, now corresponding secretary of Canadian Federation, was on today's agenda.

Only past president not on the program is Mrs. J. Hal, who now lives in California.

### Vows Exchanged In Quiet Ceremony

Mr. and Mrs. H. N. Addison, 736 Linkless Avenue, announce the marriage on Easter Monday of their daughter, Gwen, widow of the late Major Harry P. Williams, to J. Fleming Stewart, son of the late Mr. and Mrs. J. C. Stewart of this city.

The ceremony took place in the vestry of St. Andrew's Presbyterian Church with Rev. J. L. W. McLean officiating. Mr. and Mrs. W. L. Williams attended the couple.

Following the ceremony, Mr. and Mrs. Stewart left by motor, for a wedding trip on the main land.

## YORK THEATRE

Francis L. Sullivan as Pothinus has the "heavy" role in Gabriel Pascal's Technicolor version of Bernard Shaw's "Caesar and Cleopatra," now at the York Theatre. During the course of the picture he plots both for and against Caesar, and ends up the victim of his own intrigue, assassinated at the hand of Cleopatra's nurse.

Vivien Leigh and Claude Rains are co-starred in "Caesar and Cleopatra."

## CAPITOL THEATRE

Frank Faylen, who scored such a spectacular hit as "Bim," the male nurse in "The Lost Weekend," once seriously considered entering politics in his home town, Chicago.

That was back in 1932, and Frank has never regretted his decision to remain in show business.

Faylen turns in a vivid character portrayal in Paramount's Technicolor drama, "California," now at the Capitol Theatre with Ray Milland, Barbara Stanwyck and Barry Fitzgerald in starring roles.

## OAK BAY THEATRE

Making her screen debut in "The Captive Heart," now at the Oak Bay Theatre, is an actress whose married name is more familiar to filmgoers than her acting name, though theatregoers know her well.

She is Rachel Kempson. Married to Michael Redgrave, one of Britain's most popular stage and screen stars, Rachel has successfully pursued the joint careers of stage and motherhood, and is now embarking on films as well.

## Speaks Thursday

**THOMAS PORTER**

Authorized Speaker from Seattle

**SUBJECT: "The Coming Depression"**

Lecture to be held in the Prince Robert House Auditorium

912 DOUGLAS ST.

Thursday, April 10 at 8 p.m.

Admission 50c. Tickets can be secured from section headquarters, Technocracy Inc., 128 Fort St., or at the door.

## Fisticuffs Between Sinatra, Columnist At Night Club

**HOLLYWOOD (AP)**—Crooner Frank Sinatra took an assortment of pokes at Lee Mortimer, 42, movie columnist for the New York Daily Mirror, at Ciro's night club late Tuesday night, Mortimer told police today.

Mortimer appeared at the West Hollywood sheriff's station, his head bruised and, Sheriff's Deputy R. L. Wright said, claimed Sinatra "land three heavies" set upon him without warning, knocking him down and pummeling him.

Subsequently a representative of Sinatra said the fracas was set off when Sinatra overheard Mortimer call him an unprintable name, climaxing the crooner's two-year irritation over articles Mortimer had written about him.

Mortimer told reporters and deputies:

"I was leaving Ciro's with Miss Kay Kline, a band singer, when Sinatra and three men jumped me. The first thing I knew I was on the floor and the next thing I knew was when I saw a face that looked like Sinatra's above me."

The columnist conceded that in various columns he had been less than complimentary to Sinatra.

Deputy Wright said Mortimer announced he would return today to obtain an assault and battery warrant against Sinatra.

Sinatra, who apparently was unscathed, could not be reached, but his publicist, Jack Keller, gave this account of the affair: "Mortimer was leaving Ciro's with a girl. Frank was in the foyer and heard Mortimer say to the girl 'there's that... now.' It was an epithet no man could take, so Frank let him have it. Nobody held Mortimer down and there were no 'heavies' with Frank."

Keller said Sinatra told him later: "When a man calls me the names he did, that's too much for anyone."

## PLAZA THEATRE

The current success of music in films makes "The Magic Bow," which is now showing at the Plaza Theatre, a winner. It is not only Stewart Granger's greatest starring picture to date, but it also gives audiences Phyllis Calvert—thus bringing a can't-fail team to the cinema. Yehudi Menuhin plays the entire violin score accompanied by the National Symphony Orchestra, conducted by Basil Cameron.

**HOW TO KEEP BABY'S SKIN SOFT, SMOOTH AND HEALTHY**

Scientifically medicated Cuticura Baby Oil helps safeguard against germs that cause diaper rash, impetigo, buttocks scald, chafing, chapping. Buy today!

**CUTICURA ANTISEPTIC BABY OIL**

**Backache Whipped by Man and Wife**

If you suffer from Backache, Leg or Rheumatic pains, Nervousness, Swollen Ankles, Burning Passages, Bladder Weakness, or Getting Up Nights, due to Kidney and Bladder troubles, you may easily enjoy the delightful benefits experienced by thousands who have depended on Cuticura for such troubles. The following letter from a well-known Massachusetts housewife is typical of those received from Cuticura users all over the world: "I was so laid up with pains in my back, legs and arms that I was miserable. Finally I decided to try your Cuticura. In a couple of weeks I was like a new person. The pains had left and I could go anywhere. My husband had pains in his arms, took Cuticura and the pains left." To prove what Cuticura can do to bring you joyous help from the pains and distress of kidney and bladder troubles, get Cuticura cream, your druggist and give it a fair trial with the positive understanding that if you are not satisfied for any reason, you get your money back on return of empty package.

## Hollywood

By ERSKINE JOHNSON HOLLYWOOD (NEA)—Movie czar Eric Johnston read the riot act to film producers before leaving for Washington, on cleaning up the screen and avoiding state censorship.

Keynote of his talk was that "any human emotion can be portrayed on the screen in good taste." He also made a plea for less drinking on the screen.

The latter has been a device long overworked by lazy film writers. When they can't think of anything for their characters to say, they have them reach for a drink.

Exclusively yours: It was almost certain to happen. Laraine Day's troubles inspired Bob Shayne to write a film script based on the California divorce laws. The title: "One Too Many."

Producer Jesse Lasky wants to give Peggy Ann Garner her first screen romance in "Intermission," a story with a stage background.

## PASSIONATE CAMELS

Hottest love scenes of the year feature Humphrey Bogart and Camilla Caille in Jerry Fairbanks' newest "Speaking of Animals" short. The title: "In Love." H. Bogart and C. Caille are camels.

Paul Lukas will sprout a Jerry Colonna mustache for his role of the Swiss guide in "The White Tower." He will leave for Switzerland in May to start work on the picture.

Brian Donlevy wants to do the life of Admiral Richard E. Byrd. He has taken an option on the film story titled, "Snow-blind."

Just for a lark, Ann Sheridan, in a black wig, played the bit role of a Mexican charmer in a scene with Humphrey Bogart in "Treasure of the Sierra Madre." There's an odd situation on this picture. Young John Huston is directing his father, Walter.

Larry Parks is up for a role opposite Ginger Rogers in "Wild Calendar."

## NOT SPEEDY LEARNER

Tarzan is now in his 30th year of almost constant association with an educated Englishwoman. Yet "Tarzan and the Huntress" finds him using the most words he's ever mouthed in a film, 128. Mighty hunter, mighty fighter, mighty slow learner.

Mary Brian, who did 240,000 miles of tours during the war and who hasn't made a film since 1938, has just recovered from a nervous breakdown. She may do a film for Pine and Thomas.

The Hollywood Chamber of Commerce again is warning movie struck people not to come to Hollywood to become film extras. Here's why: The average film extra earned only \$700 during last year. Less than 10 per cent of the 4400 adults registered with Central Casting made enough money to subsist without income from other sources.

## RIO THEATRE

James McCallion is trainer and jockey for Gantry, the blind horse, in "Pride of the Bluegrass." Warner re-release now at the Rio Theatre.

William McGann directed the re-release from an original screen play by Vincent Sherman.

## ATLAS THEATRE

Vince Barnett's role in "The Mighty McGurk," current attraction at the Atlas Theatre, marks his first film appearance with Wallace Beery in 13 years.

The popular comedian last played in a Beery picture in 1933 as a member of the cast of "Tugboat Annie." He also was seen with the star in 1932 in a picture called "Flesh."

**CUT DOWN ON TAKING LAXATIVES THIS WAY**

See How Regular You Can Be Every Morning

Try taking Carter's Pills this way: Start with 3 and set a definite time every morning. When you get regular every morning, cut down to 2. After a few days, try 1.

Then try taking Carter's every other day. You may even find you can keep regular without any laxative.

You see, Carter's are so tiny you can cut down the dose—from 3 to 1—to fit the needs of your individual system. Without disappointment.

Carter's help clean out your intestinal tract not halfway, but thoroughly. They are doubly effective because made with two vegetable herbs compounded properly for thorough, easy action.

Thousands can cut down on laxative doing this Carter way. Ask for Carter's Pills by name to get the genuine at any drugstore—35¢, 70¢, \$1.00. Start the Carter graduated dose method tonight, and jump out of bed tomorrow to go.

**GIRLS! WOMEN! TRY THIS IF YOU'RE NERVOUS, CRANKY, TIRED~OUT**

On 'CERTAIN DAYS' of The Month!

Do female functional monthly disturbances make you feel nervous, fidgety, cranky, so tired and "dragged out"—at such times? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. This fine medicine is very effective for this purpose!

For over 70 years thousands of girls and women have reported benefit. Just see if you, too, don't report excellent results! Worth trying.

**Lydia E. Pinkham's VEGETABLE COMPOUND**

**ALWAYS READY FOR HER MEALS**

SCIENCE has proved there are certain food elements everyone needs for health. If there aren't enough of them in a child's food, serious things can happen—such as loss of appetite, stunted growth, soft bones, poor teeth, faulty nerves, defective eyesight.

Ovaltine supplements the diet with elements frequently deficient in ordinary foods. Three servings of Ovaltine furnish a significant portion of a child's daily requirements of Vitamins A, B<sub>1</sub>, C, D, Riboflavin (B<sub>2</sub>), and Niacin and Minerals—Calcium, Phosphorus and Iron.

In addition it provides the basic food substances—complete proteins to build muscle, nerve and body cells—high-energy foods for vitality and endurance. It thus acts as an insurance against food deficiencies that retard normal growth.

So if your child eats poorly, is thin, underweight, perhaps nervous, why not try delicious Ovaltine for normal growth and better appetite.

**OVALTINE**

Feed your dog as famous kennels do..

## To Meet Thursday On Transit Problem

First meeting of the inter-municipal transportation committee for 1947 has been called by Ald. H. M. Diggon to convene in the City Hall, 3.30, Thursday afternoon.

Ald. Diggon said that, as one of the city representatives, he will inform the other municipal representatives of the City Council action in authorizing the re-opening of negotiations with the B.C. Electric Railway Company, and ask whether or not the other three municipalities are prepared to approve the action on their behalf.

"We must see how many municipalities wish to come in on the unified system and under what terms before we can proceed with the negotiations," Ald. Diggon said.

This is the third year during which the four municipalities of Greater Victoria have attempted to solve the knotty problem of obtaining a unified transportation system for the area.

## Explains Benefits Of New School

Benefits which will accrue to residents of View Royal area from the school building program, if approved, were explained to a meeting of ratepayers by J. F. K. English, senior municipal inspector of schools, Tuesday evening.

At the present time View Royal residents are sending 70 children to Victoria West School and transportation charges are higher than they will be under the proposed new building plan, Mr. English said.

He said that the new school planned for View Royal, at a cost of \$65,000, will provide larger classrooms, modern equipment and extensive school grounds.

## Fatal Plunge Ends 12 Years' Grieving

BOSTON (AP)—Grieving for 12 years since the electrocution of her son, Abe, with the Miller brothers, Mrs. Rose Faber, 69, died Tuesday in a plunge from her third floor Roxbury tenement.

Resting on a table beside a chair where she apparently had been sitting just before the plunge was a photograph of her son in cap and gown on his graduation from the Massachusetts Institute of Technology.

Young Faber was known as the brains of a gang that led him and the two Millers—Morton and Irving—to the electric chair June 6, 1935, for the murder of a Needham policeman and a fireman during a bank hold-up.

## No Atomic Cars

TULSA, Okla. (AP)—The possibility that atomic energy might some day be used to power automobiles was ruled out by Dr. Arthur H. Compton, scientist, who was instrumental in work on the atomic bomb, in a speech before alumni of Washington University here Tuesday night.

"It isn't that atomic energy couldn't run your car. If used, however, those riding in the car would have to wear a three-foot protective sheet of steel to guard against the lethal rays and that shield would weigh 59 tons," he said.

The speaker predicted it will be at least 10 years before Russia can get a usable atomic bomb and that the danger of mutual annihilation will prevent the use of such a weapon.

## To Form Rangers In Reserve Militia

VANCOUVER (CP)—Formation of the Canadian Rangers as a new corps of the reserve militia was formally announced here Tuesday by Defence Minister Brooke Claxton following a conference with top western army officers.

## Beardsley Ruml Sees Depression Coming April 15, 1948

Mr. Beardsley Ruml, world famous analyst of economic conditions and chairman of the board of R. H. Macy and Co. Inc., New York, answers many questions and tells you why a depression cannot be avoided.

Mr. Ruml points out that the government has been paying out to veterans in gratuities and establishment, a large portion of the revenue received from income tax... now these payments have practically ceased.

Now you may learn the facts and prepare for next year by reading the article entitled, "The Next Depression," in the April edition of Cosmopolitan Magazine now on sale at your magazine dealers.

Cosmopolitan Magazine is distributed on Vancouver Island by Lovick's News Agency, Victoria, B.C.

ference with top western army officers.

Reiterating an announcement made in Ottawa last week, the minister said the Rangers would be formed on a restricted basis across Canada for the purpose of operating in the thinly populated sections of the country not normally traversed nor under surveillance and where it would be impractical to organize units of the reserve force.

Following a two-day inspection of west coast defences, Mr. Claxton left Tuesday by air for Edmonton. He will also visit Calgary, Saskatoon, Winnipeg, Shilo, Man., and Carberry, Man., before returning to Ottawa.

## Humanity Drifts, Moderator Declares

TORONTO (CP)—Rev. W. G. MacLean of Winnipeg, Moderator of the Presbyterian Church in Canada, said in an address to the Knox College convocation Tuesday night that as humanity drifts into a period of cyclonic change and revolution it must face the fundamental problem of a complete lack of authority.

"There has been a surrender to secularism," he said. "God is dead and eternity has been crowded out by time." He added that "the time has come for science and the secular to adjust themselves to religion."

It's Here! **pure unflavored GELATINE** made by the makers of Jell-O

Try the New—FASTER, SURER Single-Saucepan Method:

1. Combine in saucepan all of the following called for by the recipe—Minute Gelatine, liquids, seasonings, sugar.

## Ski Champion Soars High

Sig Uland of Oakland is seen taking off on a flight from Spooner's Summit, Nevada that carried him 134 feet. He is the holder of the California Ski Association title.

## Kinder's Try Gives B.C. Ruggers Victory

By ARCHIE GIBBS  
(President B.C. Rugby Union)

**SANTA ROSA, Calif.**—The touring British Columbia all-star rugby team chalked up a 5 to 0 victory over the Petaluma American Legion fifteen here Tuesday night, to square up their exhibition series against California teams. The Rebs dropped the opening game of the tour last week to California Bears 6 to 0.

Played on a rain sodden field that made ball handling difficult and footing treacherous the all-stars again found themselves outwitted by the husky Californians, but got away for several long runs during the evening only to be outlucked when near the line.

Bill Kinder of Vancouver scored the only try of the match, but it was a beauty. He took a pass about 30 yards out and cut through the Legion team to score between the posts. Harry Winters of Vancouver split the up-rights with his conversion.

Gandossi and Kinder of Vancouver and Ranson Gibbs and Chunggranes of Victoria were the pick of the Rebs, getting away

on some beautiful three-quarter runs.

### PLAY RUGGED

Referee Frank Bain of Vancouver turned in a highly creditable game despite the extremely difficult conditions and whistled for much blocking in the rugged encounter.

Bob Hope is certainly right about sunny California being sunny when he is not in the state; the weather here has been terrific. A ray of sunshine did come into our bus on the way to Santa Rosa the other day when we spotted a huge billboard beside the road which read: "Follow the Birds to Victoria." Congratulations to the Chamber of Commerce.

Coach Ed Graff of the Legion, and ex-Stanford Olympic backfield star, is doing a grand job for ruggers down here.

## Jackson Cup Final; United At Nanaimo In Week-end Soccer

Victoria West and Royal Canadian Navy will meet at Mardon Park on Saturday in the final of the Jackson Cup series for the lower island soccer championship.

West will rule slight favorites to defeat the Wednesday league eleven, who sprang the upset of the season two weeks ago by defeating the Legion in the semi-final. Navy have been practicing diligently for the match and if condition and fight can triumph Wests will be in for a busy afternoon.

Sunday Victoria United will travel to Nanaimo where they will clash with Uke Grey and his co-owners in the first game of the Anderson Cup series. The second game of the series will be played in Victoria on April 26.

Manager Ralph Cosier will field his strongest team for the Anderson Cup game, with all the regulars making the trip.

## Bill Prior To Open Season With Athletics

(Special to The Times)

**SONOMA, Calif.**—Bill Prior, lanky righthand pitcher and a hometown product, will open the season with the Victoria Athletics of the Western International League, it was announced here last night by Manager Ted Norbert. Since he joined the club here in spring training late in March the 23-year-old Prior has shown Coach's Burleigh Grimes and Sylvester Johnson a lot of stuff and they figure he stands a fine chance to make good with the class B club.

The Victoria club came up with a smart pitching find yesterday with the signing of 23-year-old Bill Wood a 210-pound southpaw last season with Binghamton of the class A Eastern League. Wood is figured to earn a first string berth and should win a lot of games for the Athletics.

Members of the Athletics, players and coaches, forgot about baseball for a couple of hours last night being guests of General "Hap" Arnold at a monster banquet. The retired American Air Force hero, who lives near here, spoke of the importance of sports and said that athletes were among the best of men and soldiers in the second Great War. Among those in attendance at the dinner was Lefty O'Doul, colorful manager of the San Francisco Seals in the Pacific Coast League.

### GET OPTIONED PLAYER

**SEATTLE (AP)**—Bill McClosky, infielder, who played for Sioux Falls of the Northern League last season, was optioned to Victoria Athletics of the Western International League by the Seattle Rainiers Tuesday.

### BREMERTON BEATEN

**LEWISTON, Idaho (AP)**—The clouting Cougars from Washington State College handed the Bremerton Bluejackets the first loss of the spring training season, 15 to 12, here Tuesday.

The Cougars broke into the lead with two runs in the third inning and were never headed during the slugfest that lasted three and one-half hours.

Not only did W.S.C. out-hit the Western International League club 18 to 12, but the Cougars made only one error, while four were charged against Bremerton.

## Hutson, English Lead Qualifiers

In the qualifying round of the Uplands Golf Club seniors tournament for the Dillabough shield, A. Hutson and H. O. English tied for medalist honors with 83's.

Following is the draw for the first round, which must be played before April 19:

H. O. English vs. L. A. Rees; S. Evans vs. J. Tully; A. Riches vs. Dr. H. H. Livsey; F. Smith vs. Maj. H. J. Norman; A. Hutson vs. A. Phillips; Canon S. Ryall vs. Capt. T. W. Kempston; T. S. Whitmore vs. A. Edmonds; H. S. Hurn vs. winner of playoff.

The draw for the class handicap competition in which all participants is posted on the clubhouse notice board.

## Cribbage Champion

Mrs. Florence Flahearty captured the championship of the Oak Bay Community Cribbage League recently when she won the playoff match with a score of 1,066 after 12 hands of play.

Percy Gibson presented Mrs. Flahearty with the trophy and thanked club members for their co-operation during the season, which he described as a most successful and enjoyable one. Len Woodhouse, donor of the cup, was unable to attend the prize-giving.

## Prystai Leads Canucks To Smashing Hockey Win

**REGINA (CP)**—With Metro Prystai uncorking a brilliant display, Moose Jaw Canucks stayed in the fight for the Abbott Cup and the western Canada junior hockey championship by walloping the Brandon Elks 7 to 4 here last night. The Moose Jaw victory forced a seventh game in the best-of-seven series, which Brandon leads 3 to 2 in games with one game tied.

The seventh contest is scheduled for here Thursday night, and the confident Canucks say they will "push Elks out of the rink."

A paid attendance of 5,132 sent gate receipts up to \$7,000, largest of the series, and that figure is expected to be topped by Thursday's crowd, as fans and scribes described the game as the "best ever seen in the Queen City Gardens."

Prystai wound up with one goal and five assists while his linemates Vic Krekiewicz and Angus Juckes banged in two goals and assisted once apiece. George Hunchuk and Harvey Stein netted the others.

The Elks goals were spread

evenly between the first and second lines with captain Walt Hergesimer and Ray Manson counting for the first stringers and Bud Evans and Freddie Duns more tallying one apiece for the second.

### ELKS SCORE FIRST

Brandon broke out on top as Evans took Billy Johnson's pass to beat Bev Bentley in the Canucks' net at 11:12 and Dunsmore scored unassisted at 13:05. Prystai's pass to Juckes left the Canucks one down as the period ended.

A powerful attack by the Canucks in the middle session gave them a 5 to 3 lead when the period ended. Hergesimer increased Brandon's lead to 3 to 1 but Juckes, Hunchuk, Prystai and Krekiewicz tallied in succession to give the Canucks a lead they never relinquished. Stein scored after six minutes of play in the last period and Brandon's Manson tallied a minute later, but Krekiewicz' counter at the 13-minute mark put the issue beyond doubt.

## Sports Mirror

By PETE SALLAWAY

**A**NOTHER hockey world series has rolled around and that calls for my annual squawk over the failure of the national radio network to carry the games on the air. For years I have been waging what appears a fruitless campaign to have the Stanley Cup finals aired in their entirety. Lack of a broadcast of the games this season is even harder to understand inasmuch as the series is between two Canadian clubs, Montreal Canadiens and Toronto Maple Leafs. In other years when one of the participating clubs has been from the United States the excuse has been offered that it was difficult to arrange a broadcast out of the American arena.

**T**RUE, the next game Saturday night at Toronto will be on the air. But by that time the Canadiens and Leafs will have played the first two games of the final at Montreal. The Canadian Broadcasting Corporation has always defended itself by stating that it is impossible to clear the national network to handle broadcasts of the Stanley Cup games. They also point out the CBC cannot ignore its other listeners by devoting so much time to sport. Both of these arguments are not worth a plugged nickel.

And I'll wager any of the CBC officials that a broadcast of the Canadiens-Toronto games would have greater listener appeal than any other program they might offer. And from all reports Imperial Oil would be only too willing to sponsor such a broadcast.

**A**PPARENTLY the only hope for a broadcast of the Stanley Cup games is for public opinion to be aroused to the extent where the CBC is forced to take action. Some of the top officials of the network system apparently refuse to recognize the tremendous interest taken by Canadians in the professional hockey final and, until sufficient pressure is brought to bear, will go on year by year ignoring such a broadcast. Evidence that my yearly criticism of the situation ruffled somebody's hair came to light a few years back when I

## Durnan Sparkles In Canadiens Easy Win

**MONTREAL (CP)**—It was one up and three to go today for Montreal Canadiens in their defence of the Stanley Cup they have won two out of the last three years. Dick Irvin's men humbled the youthful Toronto Maple Leafs 6 to 0 here last night before 12,320 customers. Bill Durnan turned in a stonewall performance and the entire Habitant corps clicked for well-spaced points as they waltzed to victory in the opener of the best-of-seven cup final.

Bill Reay snakehipped through for a pair, Murph Chamberlain, Buddy O'Connor, Maurice Richard and George Allen collected goals to get all three forward lines into the picture. And rear-guard Butch Bouchard, back in form again after a bout of stomach flu that kept him below par in the series with Boston Bruins, tossed Leafs around like straws and found time to assist on a pair of goals besides.

Defencemen Roger Leger and Glen Harmon, centre Johnny Quilty and Jimmy Peters also collected assists as Canadiens had a field day against a disorganized band of Leafs who played what Coach Hap Day admitted

received a letter from the program director in which he attempted to justify the position of the CBC and taking me to task for what he termed unfair criticism. Maybe I will get another such letter this year, but it will still not alter my feelings in this matter. These games should be on the air from start to finish and nobody can make me see otherwise.

**I**N response to the appeal of Victoria Minor Baseball Association for coaches one of Vancouver's former all-time greats has stepped forth and taken over a juvenile club. I refer to Norm Goodall, who is his heyday was first string catcher for such teams as Hammond Cedar, Vancouver Firemen and Hanbury's, all-British Columbia championship outfits. Since his discharge from the R.C.A.F. Goodall has taken up residence in Victoria. In addition to baseball Goodall starred at rugby, soccer and basketball. Three years he was selected a member of Vancouver Rebs in the McKechnie Cup rugby series for the provincial championship. Mr. Goodall will handle Cec Fletcher's club in the juvenile division and will have the assistance of Art Minnis, one of Victoria's star amateur players of a few years back.

was their worst game of the season against their inter-city rivals, FIRST SHUTOUT

Durnan was too much for them. He showed the stuff that won him the Vezina trophy four years in a row and chalked up the first shutout of this spring's playoffs.

Durnan had only 20 chances to handle, against 33 shots Turk Broda saved at the other end, but some of them were sparklers. Broda was no slush either, but loose play in front of him gave the Turk little chance on the shots that zipped by him.

Only casualty of the game was Leafs' veteran pivotman, Nick Metz, who suffered a rib separation that may keep him out of the rest of the series.

Though Leafs were downhearted over the result, they weren't too pessimistic. They preferred to look on it as a bad game out of their systems.

And on the other side of the fence, Canadiens were confident they could take Leafs no matter how Conn Smythe's men played—rough, tough or smart.

**SUMMARY**  
First Period—1. Montreal, O'Connor (Leger) 2:20. Penalties: Thomson (Lemieux) 17; Bouchard (Eminick).  
Second Period—2. Montreal, Reay (Harmon) 8:17. 3. Montreal, Richard (O'Connor) 8:46. Penalties: Quilty (Eminick), Edouard.  
Third Period—4. Montreal, Allen (Bouchard) 3:40. 5. Montreal, Reay (Allen, Bouchard) 11:04. 6. Montreal, Chamberlain (Quilty, Peters) 13:28. Penalties: None.

## Pauline Betz, Mrs. Cooke Draw Tennis Suspensions

NEW YORK (AP)—Pauline Betz, the world's reigning tennis queen, and Mrs. Sarah Palfrey Cooke, twice former United States titleholder, were suspended from amateur play by the United States Lawn Tennis Association Monday in a crack-down without precedent in the game.

The two stars, first women ever to receive such drastic treatment from the American body, were deprived of their amateur status because of a letter sent by Mrs. Cooke's husband, Elwood Cooke, to clubs here and abroad offering to display the pair in exhibition matches at fees ranging from \$350 to \$500.

Miss Betz, holder both of the United States and All-England championships, was notified by cable at Monte Carlo of her suspension, pending final action by the executive committee of the U.S.L.T.A.

As the latter body is not scheduled to meet here until September, Miss Betz will be unable to compete either in the Wightman Cup matches against England this summer or to defend her national title at Forest Hills late in August.

### SURPRISE MOVE

The official suspension of Mrs. Cooke came as something of a surprise. After winning her second national title in 1945, the former Boston girl announced her "retirement" from amateur play and did not defend her crown last year. President Holcombe Ward of the tennis association said however, that the body had not removed her name from the amateur rolls.

Miss Betz told the Associated Press in Monte Carlo Monday that she had "not yet made up her mind" whether she would turn professional, and she would not, in any case, reach a decision until she returned to the United States. She said she planned to take a 10-day vacation in Switzerland.

## Seek Woodcock As Louis Opponent For June Battle

NEW YORK (AP)—The quest for a challenger for Joe Louis' heavyweight title assumed an international aspect today. Matchmaker Nat Rogers has gone to England to stalk the only foe the champion is interested in meeting for his scheduled June bout in Yankee Stadium.

Objective of Mike Jacobs' emissary is to sign empire title holder Bruce Woodcock, at the moment playing hard to get. And although the Briton is far from ready, the word has gone out that Woodcock is the man most likely to be on hand when Joe comes out for the 34th defence of his title.

Meanwhile, the line of would-be challengers is growing almost daily. To the latest offer—a \$200,000 guarantee for a 10-round bout in Salt Lake City with Mello Bettina—Joe replied with words that appear destined to become almost routine in the next few months: "Personally I don't think I'd go for such a proposition."

Rogers said as he left here yesterday he hoped to sign Woodcock after his April 15 bout with Joe Baksi of Kulpmont, Pa.

If Woodcock comes through decisively there seemed to be little doubt that he could be persuaded to make a second Atlantic crossing.

## Pharawell Sets Up World Track Record

HALLANDALE, Fla. (AP)—A world record for the mile and seven furlongs was set Tuesday at Gulfstream Park by Pharawell, a five-year-old gelding owned by B. D. Rowley. Winning its second straight and third race in six outings this year, Pharawell was timed in 3:13.45, clipping 1.5 second off the standard set by Bold Courtier at Agua Caliente Aug. 8, 1937.

Pharawell carried 119 pounds, including jockey Enrico Gonzalez. Bold Courtier, a four-year-old at the time, was under an impost of 116 when he made his record run.

## Spring Racing Meet At Portland Track

PORTLAND, Ore. (AP)—The Oregon Racing Commission today scheduled a spring horse racing meet at Portland Meadows to open May 17 for "25 days or more." Full dates will be set later.

William Kyne, general manager of the track, said the spring meeting might be extended to 31 days and the fall season made a combined harness and running event of about 10 days.

The commission also scheduled 60 days of dog racing at Portland between June 16 and Aug. 30.

## Dodgers To Make Decision Soon On Robinson's Future

NEW YORK (AP)—Jackie Robinson, the first Negro to break into modern organized baseball, may know before the end of this week, whether he also will become the first Negro to reach the major leagues since Moses Fleetwood Walker played for the Toledo Club of the American Association in 1884.

Still the property of Montreal Royals of the International League, Robinson will wear a Royal uniform when Brooklyn Dodgers engage their farm club in a two-game series at Ebbets field this week.

Although president Branch Rickey of the Dodgers refuses to comment, it is virtually certain that the answer to whether Robinson will start the season with Brooklyn or Montreal will be given before the championship campaign gets under way Tuesday.

It is conceivable that the decision may come within the next two days as Rickey has stressed that Robinson's advancement to the majors depended on what he showed in competition against the Dodgers in the meetings between Brooklyn and Montreal.

### KAYO FOR ROBINSON

KANSAS CITY, Kan. (AP)—World welterweight champion, Ray (Sugar) Robinson, 155, scored a technical knockout in two minutes and 30 seconds in the fourth round over Eddie Finazzo, 160, in their scheduled 10-round bout here Tuesday.

Please return all Wednesday-closing petitions to the Joint Committee at once, completed, uncompleted or blank.

## Get Quick, Safe Relief from ASTHMA

"Sixteen years ago, because of exposure to dust at work, I began to suffer from Asthma, Chronic Bronchitis and, in summer, from Hay Fever," writes Mr. Joseph Scott, 40 Madeira Pl., Toronto. "I couldn't lie down for fear of smothering. I coughed, choked, wheezed, fought for breath. During bouts of Hay Fever, I sneezed and wheezed without relief. Then my landlady persuaded me to try Templeton's RAZ-MAH. I am thankful to say that RAZ-MAH quickly relieved my suffering and I was able to sleep and work in comfort."

If you suffer from the wheezing and choking of Asthma or the sneezing of Hay Fever—from the misery of dry, hacking or phlegmy Bronchial Cough—get quick, safe relief with Templeton's RAZ-MAH. RAZ-MAH has earned the praises of thousands who once suffered as you do now. Get a 50c or \$1 box from your druggist today—and enjoy the blessed relief you long for.

## Always a FORD for Thirty-Two Years

The Esquimalt Meat Market, 1311 Esquimalt Road, has set somewhat of a record through consistent use of Ford trucks to maintain their delivery service. In 1915 there were not more than three cars in Esquimalt and Arthur Young, proprietor of the Esquimalt Meat Market, was the owner of one of them, a Ford. Today he has just purchased the latest model panel delivery model Ford through National Motors Ltd. In Mr. Young's estimation no other car give the reliable, economical service, day in, day out, that is demanded in delivery work. It is indeed a far cry from the first brass bound, square rigged Ford that served a store, then operated by one man, to the streamlined beauty pictured above that carries out the deliveries for a business now boasting a staff of five.

## Anscomb Interviewed But No Statement On Any Aid To City

The finance committee, headed by Ald. Edward Williams, today interviewed Hon. Herbert Anscomb, Minister of Finance, in an effort to ascertain how much relief the city could expect from the provincial government this year to aid in balancing the 1947 budget as a result of implementation of the Goldenberg Report and the new tax agreement with Ottawa.

On the delegation were Mayor Percy George, Ald. W. L. Morgan and Ald. J. D. Hunter, as well as the chairman. They were accompanied by John Baxter, committee secretary, J. H. B. Watson, assistant comptroller, and A. J. Patton, city solicitor.

On their return Ald. Williams said there was "nothing to report," that Mr. Anscomb had promised merely to give their requests consideration. No assurance was given that the definite information would be available in time to aid the aldermen in setting the mill rate for 1947. Ald. Williams said he could see little point in making any more representations on the matter to the provincial government this year.

A man who pleaded guilty to running over a firehose across a street while it was in use was fined \$5 by Magistrate H. C. Hall in city police court today.

## Accidental Death Verdict At Inquest On 6-Year-Old Boy

After five minutes' deliberation, a coroner's jury at an inquest held at Hayward's Funeral Parlors this morning into the death of six-year-old Richard George Peters, 582 Hillside Ave., brought in a verdict of accidental death.

The boy died last Saturday as a result of injuries suffered last Friday when he ran in front of an automobile at the west end of the Johnson Street Bridge.

Dr. John H. Moore who attended the child gave evidence that the boy suffered multiple face lacerations and that the jaw, bones of the face and base of the skull were fractured as a result of the accident.

Ralph Peters, nine-year-old brother of the boy, and Robert Brown, a playmate, said they had been playing in a ditch near the bridge. Young Brown said that Richard had waited for one car to pass and had then run out in an attempt to cross the street before the next car came by.

Constable Brian Ferguson, who attended the scene of the accident, gave evidence that the car had stopped within its own length, and was equipped with good brakes.

Bernard Baldwin, a passenger

## Public Health Aims Outlined At Conference Of Workers

Soil conservation, nutrition, social security, transportation, and other broad current problems which have direct or indirect effect on physical and mental health of the public, should gradually come into the scope of public health workers, in the opinion of Dr. C. E. A. Winslow, speaker at the annual staff meeting of provincial public health workers being held here this week.

Dr. Winslow, an internationally-known public health authority, spoke on "Backgrounds of the American Public Health Campaign" before 150 public health workers and outlined transitions in public health philosophy.

He defined the most important job of public health as the planning of social machinery "which will assure to every individual in the community a standard of living necessary for maintenance of health."

"If our environment were to be completely sanitary and healthy, conditions would not be satisfactory," he said.

In the car, said that they crossed the bridge at 15 miles per hour. He said he had seen a boy (Ralph) on the left hand side of the street but had not seen Richard until he ran right in front of the car.

The driver of the car, Cyril Woodley, said that he had not seen the boy until he was in front of the car. As soon as he saw him he swung to the left and applied the brakes in an attempt to miss the boy.

Woodley said that after the accident the boy crawled from under the car, and ran to the side of the road where he collapsed. He said he picked the boy up, flagged down the next car and took the boy to the police station.

He said at the time of the accident he was traveling at 15 miles per hour.

Harry Peters, father of the boy, said that the boy was very active for his age. He did not know what the boy was doing so far from his home.

Members of the jury were John W. Corbett (foreman), Fred Gibbon, Arthur Cooper, Lloyd Goodsell, James Bjordal and Frank Saunders.

City police are seeking the owner of a quantity of waterpipe picked up sometime ago, which is now rusting at the station yard.

Please return all Wednesday-closing petitions to the Joint Committee at once, completed, uncompleted or blank.

## Victoria Burns Club Re-elects Gunn President

Again President

Dr. W. R. Gunn was elected president for his second term at the annual meeting of the Burns Club of Victoria, in Chamber of Commerce auditorium, Tuesday night.

D. J. Proudfoot was elected vice-president, while Harry Wood and John Grant were re-elected secretary and treasurer, respectively.

Patron of the club is Lieutenant-Governor C. A. Banks. Rev. James Hood is honorary president and E. M. Whyte, honorary vice-president.

Elected to the executive are: J. J. Matheson, John MacKay, P. J. Sinnott and Alec McCloy. A life membership certificate was presented to Mrs. Donald Cameron, one of the oldest members of the club.

Reports submitted by officers showed the club to be in healthy financial condition. Contributing to the entertainment program were: Muriel Trimble, Marion Ingis, James McGrath, P. M. H. Edwards, Mrs. E. A. Cartwright and Ray Gandy.

## 4 Seamen Fined For Using Car Without Owner's Permission

Apprehended this morning at 6.30 by Saanich policemen, Sgt. Cecil Pearce and Jack Hamilton, on Cedar Hill Road, near a damaged car, four merchant seamen from the dry-docked freighter Lake Kamloops pleaded guilty to using a car without the consent of the owner and were each fined \$25, or in default, 20 days in jail, by Magistrate H. C. Hall at a special Esquimalt police court this morning.

The four were Lachlan Joseph McLeod, Vancouver; Patrick Hobbs, Lake Megantic, Que.; Herbert Green, Sarnia, Ont.; and Walter Tulpinski, from the east.

Following Tuesday night's meeting, Local No. 238 issued a statement saying "the jurisdictional rights are ours without question, therefore we cannot agree with the Marine Workers' union that it works under our jurisdiction while having allegiance to a dual organization."

The A.F.L. union executive does not want to jeopardize their closed shop agreement with Yarrow.

**WOULD AVOID WORK STOPPAGE**

"We do not wish to have any stoppage of work at this time that may jeopardize the work on hand or future contracts for new ships and in order to prevent further misunderstandings of this kind we feel the matter should be clarified at this time."

"We have at all times had cordial relations between our members and members of the machinists' local until a minority group which left the Boilermakers' Hall some time ago saw fit to amalgamate with the unionists."

Since then, A.F. of L. union

## Island Police Alerted For Alleged Bandit

Provincial Police forces on the southern half of the island were still keeping a close lookout today for the would-be bandit who attempted to hold-up Rand's Service Station on the Cowichan Lake Road last Tuesday night at 9.30.

As soon as the police heard of the unsuccessful attempt, detachments as far north as Nanaimo were alerted and many cars were stopped by the blockade of officers with drawn weapons in an attempt to apprehend the man who escaped in a car, believed to have been driven by an accomplice.

A man described as 25 years of age, wearing a light raincoat, felt grey hat, about 160 pounds and about five feet, six inches in height, entered R. Risby's store at 9.35. He asked for cigarettes. When the proprietor turned around with the package he was faced with what he believes was a .38 revolver.

The man pointing the weapon told Mr. Risby: "This is a stick-up!"

Mr. Risby immediately dashed to the back of his shop and got behind a partition and when he did this the man with the gun fled from the store and got into a waiting car.

The proprietor immediately got in touch with the police and the arm of the law went into action.

## Much Graver View Of Greece Taken By U.S. Than Britain

LONDON (AP) — A highly placed British government source said today United States State Department officials in Greece "took a much graver view" of the internal and international ramifications of the Greek situation than did the British authorities.

State Department observers had reported Britain's withdrawal from Greece would pave the way for Communists to seize control of the Greek government, with help from Greece's Communist-dominated northern neighbors.

"They took a much graver view than we as to what our withdrawal would mean," this British informant said. "We felt the present Greek government was by now fairly firmly based."

"We have always been aiming at a situation where the Greeks could control their own internal situation. We felt that the guerrilla fighting, while a considerable nuisance, was not great enough to constitute a danger of real civil war."

"Our judgment was that, although some arms were coming across from the northern borders, it wouldn't go much beyond assistance to guerrilla fighting."

He added, however, that Britain did regard the Greek situation, which impelled President Truman to ask Congress for \$250,000,000 to aid Greece, as "serious."

## 27 Die In Crash In Venezuela

CARACAS, Venezuela (AP) — The Venezuelan government decreed a three-day period of national mourning today for 27 persons killed Tuesday when an Aeropostal Venezolana plane crashed in mountain terrain 25 miles east of here.

The disaster—worst in Venezuela's air history—took the lives of everyone aboard, including 21 high school students and three teachers returning from a Holy Week vacation. The plane carried a crew of three—all Venezuelans.

The two-engine ship was scheduled to land at Caracas' La Carlota airport at 9:30 a.m. When it failed to arrive, 60 military and commercial planes began a search. Seven hours later police officials from the town of Guatire located the wreck and reported the bodies of the crew and the 25 passengers had been destroyed by fire.

## The DOCTOR Says:

IMMUNIZATION AGAINST DIPHTHERIA

By WILLIAM A. O'BRIEN, M.D.

There has been a world-wide increase in diphtheria during the past five years. For some time U.S. health authorities feared it represented the introduction of an especially virulent strain of the disease from Europe.

Due to the rise they also thought that immunization was not effective against the prevailing types.

Dr. Gaylord W. Anderson, director of the School of Public Health, University of Minnesota, believes that the rise in the diphtheria rate was not caused by new strains and that the disease still can be controlled by immunization.

He bases his statement on the fact that diphtheria already has started to decline in those sections of the country where it first showed an increase.

It is interesting to note that a Roper's survey of the U.S. revealed that although 80 per cent of American mothers believed in immunization against diphtheria, less than 65 per cent had had their children immunized.

Infants between six and nine months of age should be taken to the family physician for immunization with diphtheria toxoid, because children under five have the highest death rate from the disease.

Mothers get booster shot

Mothers should not wait until diphtheria breaks out before they have their children protected. One mother wrote that she had done this. But when diphtheria broke out in the community, her family was the first to be infected.

Children who have been immunized against the disease should receive a booster shot when they start school or when an epidemic occurs. Although immunity is established, it can be increased by a subsequent injection of the vaccine.

R. E. COX, Official Administrator, County of Victoria, Administrator of the Estate of Arthur James Farrell, deceased, 519 Central Building, Victoria, British Columbia.

## Notice to Creditors

NOTICE IS HEREBY GIVEN that all creditors and other persons having any claims or demands against the estate of Arthur James Farrell, deceased, late of the City of Victoria, in the Province of British Columbia, who died intestate on or about the 6th day of February, 1947; at the City of Victoria, Province of British Columbia, are hereby required to send by post prepaid full particulars in writing of their claims and demands, verified by Statutory Declaration, to the undersigned, on or before the 30th day of May, 1947; and all parties who have any assets belonging to or who are indebted to the said deceased, are required to forward particulars of same to me forthwith, and that the said Administrator will, after the last-mentioned date, proceed to distribute the assets of the said intestate among the parties entitled thereto, having regard only to the claims and demands of which he shall then have had notice.

AND TAKE FURTHER NOTICE that, pursuant to Section 28 of the "Trustee Act," the said Administrator will not be liable for the assets of the said intestate or any part thereof as distributed to any person or persons of whose claims and demands he shall not have had notice by the said 30th day of May, 1947, and that he will make final distribution of the assets at the expiration of one year after the death of the said deceased.

DATED at Victoria, B.C., this 9th day of April, 1947.

R. E. COX, Official Administrator, County of Victoria, Administrator of the Estate of Arthur James Farrell, deceased, 519 Central Building, Victoria, British Columbia.

## Uncle Ray

EUROPE HAS VARIOUS KINDS OF DOGS WHICH GUARD SHEEP

In the North Sea, about 300 miles northeast of Edinburgh, Scotland, are the Shetland Islands. There are more than 100 of these islands, but some of them are so small that they hardly deserve the name of islands.

The Shetland pony gained its name from these islands, and it is famed because of its small size and gentle nature. Other animals which carry the Shetland name are the Shetland sheep dogs.

A Shetland sheep dog looks like a small collie, and has the nickname of "pocket collie." It is only 13 inches high.

Small as they are, the Shetland sheep dogs have proved themselves strong and sturdy. They follow sheep into high hills and small mountains, and do good work in rounding them up. Cases have been known where the rather wild sheep of these islands have struggled with the dogs, and have fallen with them over the edges of cliffs.

All around Europe are special breeds of sheep dogs, often called "shepherd dogs." These are, in general, large and strong. In many times their chief duty was to guard sheep against wolves.

In most parts of Europe, wolves have been killed off and little danger comes from this source nowadays. Yet wolves do still exist in some of the wilder sections of that continent, including parts of Russia. The Russian sheep dog, of which we spoke yesterday, is strong enough to fight off a wolf.

Germany's shepherd dogs include the famous "police dogs." These are sturdy dogs which usually are at least two feet tall. Many of them have brown and white hair, but others are grey, grey and brown, black or white.

Solid-black German shepherds meet the standards of the breed, and so do solid-white ones. Some of these dogs are used to guard sheep, but they are more commonly employed as watchdogs or as police dogs. They gained the latter name because many of them were trained to perform work for police officers.

The white Italian sheep dog known as the "Maremma" is large and powerful. It is faithful in its work in the mountains, and is a good match for a wolf.

## Canada To Import 1,100 Pole Laborers

OTTAWA (CP) — Canada is making arrangements to bring in 1,100 more Polish veterans as farm labor, it was announced today in a joint statement issued on behalf of Labor Minister Mitchell and Resources Minister Glen.

The veterans, additional to 2,900 Poles admitted last autumn, will bring the total for the movement of Polish farm workers into Canada to 4,000, the quota set originally for the admission of Polish veterans. Heavy demand by farmers for additional help has resulted in the move.

It is expected Canadian officials will leave shortly for England to complete arrangements there for the selection and transfer of the Polish veterans to Canada. The new immigrants will be placed with farmers who have requested their services and are willing to sign an agreement covering their terms of employment.

More than 1,000 applications have been received from farmers in various provinces during recent weeks, the statement said.

In Alberta, Manitoba and Ontario the demand for sugar beet growers is heavy, and it is expected some of the new arrivals will be placed on these farms.

Farmers interested in obtaining the services of Polish veterans should submit applications to the nearest provincial agricultural official or national employment service official.

## U.B.C. Watchman Tied With Wire, Tape

VANCOUVER (CP) — Safe-crackers spent an unprofitable time in the administration offices at the University of British Columbia early today.

They trussed the night watchman with wire and adhesive tape, tried to blow two vault doors, and finally left without loot.

Watchman S. T. Woodman was found by police after a telephone call had informed them that "a man is tied up in the administration building."

The safe-crackers will be more disappointed when they learn the vaults contained only students' records.

Three young men pounced on me as I entered the building at 2:30 a.m., Woodman told police. "They first tied me with wire, then adhesive tape."

## Royal Family Sees Veterans Parade

SALISBURY, Southern Rhodesia (Reuter) — The King and Queen accompanied by the Princesses witnessed a parade of 3,000 Rhodesian ex-servicemen and women here today.

Later the King held an investiture at Government House.

Tomorrow the Royal Family will begin the 580-mile journey westward to Victoria Falls, with various stopping points to meet gold miners and farmers of the Rhodesian uplands.

## Atkinson Honored By Jockey Guild

NEW YORK (AP) — Toronto-born Ted Atkinson, who led United States riders last year, Tuesday was honored before a big crowd when presented with the Jockey Guild's annual plaque as outstanding jockey of 1946.

Marshall Cassidy, executive secretary of the Jockey Club and John A. Morris, president of the Jamaica track, made the presentation in the winners' circle. Other well-known riders joined in the ceremonies.
